CLHIA GUIDELINES ON INDIVIDUAL VARIABLE INSURANCE CONTRACTS RELATING TO SEGREGATED FUNDS

APPROVED BY
THE CANADIAN COUNCIL OF
INSURANCE REGULATORS AND
CLHIA'S BOARD OF DIRECTORS

MARCH 4, 1997

(as amended on March 7, 2001)

EFFECTIVE DATE
January 1, 2002

CLHIA GUIDELINES ON INDIVIDUAL VARIABLE INSURANCE CONTRACTS RELATING TO SEGREGATED FUNDS

Foreword

The disclosure guidelines for Individual Variable Insurance Contracts ("IVICs") established by the Canadian Council of Insurance Regulators ("CCIR") and the Canadian Life and Health Insurance Association Inc. ("CLHIA"), set out in CLHIA Guidelines Nos. 23, 24, 86, 87, 88 and The Canadian Code of Advertising Standards (the "Former Guidelines"), have been revised and consolidated, with the applicable legislation, to produce these CLHIA Guidelines on Individual Variable Insurance Contracts relating to Segregated Funds.

With the exception of Part XIII, Audit and Accounting Requirements and the requirement for financial statements on an audited basis under Part E, Financial Disclosure, of Form 1, these Guidelines shall apply as of July 1, 1997, to all IVICs issued on or before that date. These Guidelines come into full force and effect on January 1, 1998. However, CLHIA urges all insurers to note that Part XI, Partitioning of Assets Held in Segregated Funds, and Part XII, Merger of Segregated Funds, have yet to receive the benefit of the proposed amendments to the Income Tax Act that would prevent unwanted dispositions occurring in the hands of contractholders.

Revisions

The Guidelines were amended in the following areas: index fund/concentration limit (ss. 2.1(aa), 2.1(bb), 2.1(nn), 10.1(1)(d), 10.1(2)(b), fundamental changes (ss. 2.1(u), 12.3, Form 1, Item 1 (g)), financial information (ss. 2.1(q), 5.2(b), 5.2(h), 5.4, 5.5, 9.4, Form 1, Item 11, Form 1, Item 21), performance data (ss. 8.13, 8.14, 8.17), manager proficiency (Form 2), fund-of-fund arrangements (ss. 8.11, 8.12, 10.3(2), Form 2 - footnote) and summary fact statement (ss. 2.1(vv)) (the "Guideline Amendments").

These Guideline Amendments come into full force and effect:

- (a) on December 31, 2001 for individual variable insurance contracts issued pursuant to new and amended Information Folders filed after that date;
- (b) on the first renewal date after December 31, 2001 for contracts issued pursuant to Information Folders re-filed in accordance with Section 4.2 (b); and
- (c) on December 31, 2002 for contracts that are in force but no longer offered by the insurer.

Where the segregated fund is an index fund s. 10.1(2)(b) (i) shall be effective April 30, 2001. Section 10.1(1)(d), s. 10.1(2)(b) (ii) and (iii)

shall be effective for any new filings after April 30, 2001, or for any re-filings on the normal re-filing date beginning January 1, 2002.

The Guideline Amendments were approved by the CLHIA Board of Directors on March 7, 2001.

Non-Application

These Guidelines do not apply to group VICs relating to segregated funds.

Matters respecting the training, competence and skill of life insurance agents are not within the scope of these Guidelines.

PART I – APPLICATION:

1.1 General:

These Guidelines apply to individual variable insurance contracts that meet the definition provided in Section 2.1 of these Guidelines and, with the exception of Part XIII, Audit and Accounting Requirements and Part E, Financial Statements, of Form 1, are effective July 1, 1997. From July 1, 1997, until the date the first audited financial statements are due, the financial statements required under Part E, of Form 1, need not be provided on an audited basis. These Guidelines are in full force and effect on January 1, 1998. The first audited financial statements required under Part E, of Form 1, are due four months after the insurer's fiscal year ending in 1998.

1.2 Non-Application of Guidelines:

Group variable insurance contracts relating to segregated funds are not subject to the compulsory application of these Guidelines.

In addition, these Guidelines do not apply in respect of individual variable insurance contracts that meet the definition provided in Section 2.1 of these Guidelines, but which are no longer offered for sale to the public on, and after, July 1, 1997, provided that the insurer has ceased all sales of individual variable insurance contracts. In such an instance, the insurer shall, at a minimum, meet the requirements of the former CCIR and CLHIA Variable Insurance Contract Guidelines, set out in CLHIA Guidelines Nos. 23 and 24, in respect of all existing contracts. Where the insurer continues to sell individual variable insurance contracts generally, but has simply ceased to sell any particular type of its individual variable insurance contracts, the insurer must comply with these new Guidelines for all of its individual variable insurance contracts.

PART II – DEFINITIONS:

2.1 In these Guidelines,

 - (i) descriptive literature produced by, or on behalf of, an insurer in newspapers or magazines, signage, and all radio, television, or electronic messages;

The term “hedging” shall also include the hedging of all or a portion of the currency exposure of an existing investment or group of investments either directly or by currency cross hedging;

- (v) an advertisement for a new class or series of units of a segregated fund that pertains to the same investment portfolio as an existing class or series of units shall not contain performance data relating to the existing class or series unless the advertisement clearly explains any differences between the new class or series and the existing class or series that could affect performance;

- (d) if there have been any changes during the performance measurement period in the segregated fund's management, fundamental investment objectives, characterization as a money market fund, or in any portfolio advisor or in the ownership of the insurer or in fees or charges, including the waiving or absorbing of fees or charges, that would or could reasonably be expected to have materially affected the segregated fund's performance, the advertisement shall contain:

- (i) summary disclosure of the change or a statement to the effect that the segregated fund has undergone changes during the performance measurement period which would or could have [insert as appropriate: affected/increased/decreased] the segregated fund's performance had those changes been in effect throughout the period; and

- (ii) for a money market fund which during the performance measurement period did not pay or accrue the full amount of fees and charges payable by the segregated fund, or any recurring fees and charges that are payable by all contractholders, disclosure of the difference between such full amounts and the amounts actually charged, expressed as an annualized percentage on a basis comparable to current yield; or

- (iii) for other than a money market fund, a description of the method used in calculating the performance data during the performance measurement period and a statement that the calculation has been performed on a net basis and indicating any fees and charges that have been deducted in performing the calculation;

- (e) where the advertisement is not a report to contractholders and relates to a money market fund, the standard perform-

ance data which is given shall be calculated for the most recent 7 day period for which it is practicable to calculate the standard performance data taking into account publication deadlines, provided that this 7 day period is not more than 3 months prior to the date of the appearance or use of the advertisement in which it is included and not more than 3 months prior to the date of first publication of any other advertisement in which it is used;

- (f) for other than a money market fund, the indicated rate of return shall be the historical annual compound total return including changes in unit value and reinvestment of all dividends or distributions but not taking into account sales, redemption, distribution or optional charges payable by any contractholder which would have reduced returns;
- (g) where performance data is advertised, comply with Section 8.1 and include the prescribed warning set out in Section 5.2(d), and indicate:
 - (i) where an illustration of growth rates of a segregated fund is based upon the past performance of a segregated fund itself or of similar funds or of one or more indices, it shall also be made clear that such past results should not be construed as being indicative of the future performance of the segregated fund;
 - (ii) performance data must be reported, at a minimum, on a 1, 3, 5 and 10 year basis. Where a segregated fund has not been in existence for 10 years, then its performance data should be reported, at minimum, on a 1, 3 and 5 year basis, and since inception, or as is applicable; and
 - (iii) performance data which is provided must, at a minimum, be for the 1, 3, 5, and 10 year periods, or as is applicable, ending on a calendar month not more than 3 months prior to the date of first publication;
- (h) where performance data is advertised with respect to investments over a stipulated period of time, indicate also any qualification which would prevent redemptions prior to expiry of such period;
- (i) where withdrawal privileges for investments in a segregated fund are advertised, indicate any qualification preventing withdrawal of the redemption request;
- (j) where fees or charges are referred to, include a statement listing all fees and charges which are applicable;
- (k) where costs or commissions on sales of individual variable insurance contracts are referred to as applying or not applying, include a statement listing all fees and charges applicable to those sales. Where a withdrawal charge is applicable, include a statement listing the charge;
- (l) where describing an individual variable insurance contract as suitable for registration (e.g. as an RRSP), include the following statements:
 - (i) if applicable, that certain of its regular contractual benefits may be required to be modified under the terms of an endorsement upon registration;
 - (ii) that registered life insurance contracts may be more suitable as a means of long duration investment rather than short duration;
 - (iii) that the prospective contractholder discuss fully all aspects of registration with the insurer or agent before the purchase of any registered, individual variable insurance contract; and

the insurer shall not refer to immediate tax saving as the primary reason for purchasing registered, individual vari-

able insurance contracts, such as RRSPs, nor shall the insurer emphasize deregistration soon after the contract is issued.

8.15 Performance Comparisons for Segregated Funds:

A sales communication or advertisement that compares the performance of one or more segregated funds to a consumer price index, any stock, bond or other index, average, or any guaranteed investment certificate or other certificate or deposit, real estate or any other investment of any kind or nature, including another segregated fund, shall:

- (a) include all facts that, if disclosed, would likely materially alter conclusions reasonably drawn or implied by the comparison;
- (b) present data for each subject of comparison for the same period(s); and
- (c) where the performance of an index or average is compared, if appropriate in view of the nature of the comparison, describe the index or average, point out if there are material differences between the composition of or calculation of the performance of the index or average and the investment portfolio of the segregated fund and state any other factors to make the comparison fair and not misleading.

8.16 Illustrations:

An illustration presenting any prospective accumulation of the value of contributions to an individual variable insurance contract shall include a statement that the accumulation may be used at maturity to provide an annuity, or if it is a life insurance product, shall include a statement that the accumulation may provide a death benefit, and, in either case, shall also state the rate of growth assumed in calculating the illustration and shall also state whether or not any guarantee applies in whole or in part, and the nature of such guarantee.

The contents of an illustration must meet the minimum requirements set forth in the CLHIA's Guideline for Life Insurance Illustrations, as may be amended from time to time.

8.17 Standard Performance Measurement Presentation:

The standard performance data of a segregated fund shall be calculated and disclosed in accordance with the Best Practices Guidelines – Performance Data, such guidelines to be jointly approved by the CCIR and the CLHIA.

PART IX – RETAIL REMUNERATION:

9.1 Insurer Shall Obtain Written Agreement from Agent:

An insurer offering individual variable insurance contracts for sale through agents or brokers shall have a written agreement (the "agent's agreement") with each agent or corporate agency authorized to sell individual variable insurance contracts.

9.2 No Unauthorized Advertisements:

No advertisement shall be published and no pamphlet or booklet concerning or referring to an insurer's individual variable insurance contracts shall be issued, displayed or circulated by the agent unless prior authorization is obtained in writing from the insurer. The insurer remains bound by the rules pertaining to Advertising as set out in Part VIII of these Guidelines.

9.3 "Trailer" or Service Fees:

Where an agent is entitled to receive "trailer" or service fees from the insurer or the manager of the segregated fund, and these fees are charged to the assets of the segregated fund, this fact shall be disclosed to prospective contractholders in the information folder, along with an explanation of the services that they can expect to receive as a result.

The insurer shall provide the particulars of such fees in the information folder, in accordance with Form 1, Item 12, if the fees are charged to the assets of the segregated fund.

9.4 Management Expense Ratio:

- (1) The audited financial statements for a segregated fund shall set out in tabular form the management expense ratio for each fee option under an individual variable insurance contract for each of the last five completed financial years of the segregated fund, together with a brief description of the method of calculating the management expense ratio.
- (2) Where the basis of the calculation of fees and charges and other expenses that are charged to a segregated fund are changed or proposed to be changed and where such change would have a material effect on the management expense ratio for the last completed financial year of the segregated fund if such change had been in effect for such year, the information folder shall disclose the effect of such change.
- (3) Where any financial period referred to in Section 9.4(1) is less than 12 months, the management expense ratio shall be shown on an annualized basis with reference to the period covered and to the fact that the management expense ratio for the period has been annualized.
- (4) The management expense ratio of a segregated fund applicable to a particular fee option under an individual variable insurance contract for any financial year shall be obtained by dividing (i) the aggregate of all fees and charges and other expenses paid or payable by the segregated fund during or in respect of the financial year in question which relate to that particular fee option, by (ii) the amount of the average net asset value of the segregated fund attributable to the particular fee option for the financial year in question and multiplying the quotient by 100. For the purpose of making this calculation:
 - (a) the expression "the average net asset value of the segregated fund attributable to the particular fee option for a financial year" means the result obtained by:
 - (i) adding together the amounts determined to be the net asset value of the segregated fund attributable to the particular fee option as at the close of business of the segregated fund on each day during the financial year in question on which the net asset value of the segregated fund has been determined in the manner from time to time as described in Item 2 of Form 1;
 - (ii) dividing the amount resulting from the addition provided for in clause (i) by the number of days during the financial year in question on which the net asset value has been determined;
 - (b) for the purposes of Section 9.4, the expression "all fees and charges and other expenses" means all fees and charges paid or payable by the segregated fund and all expenses incurred in the ordinary course of business relating to the organization, management and operation of the segregated fund including interest charges (if any) and all taxes other than income taxes, but excluding commissions and brokerage fees on the purchase and sale of portfolio securities;
 - (c) If any fees and expenses otherwise payable by a segregated fund in a financial year were waived or otherwise absorbed by the insurer, the fund shall disclose in a note to the disclosure of its management expense ratio, details of:
 - (i) what the management expense ratio would have been without any waivers or absorptions;

- (ii) the length of time that the waiver or absorption is expected to continue;
- (iii) whether the waiver or absorption can be terminated at any time by the insurer; and
- (iv) any other arrangements concerning the waiver or absorption;
- (d) A segregated fund that has separate classes or series of units shall calculate a management expense ratio for each class or series, in the manner required by this section, modified as appropriate; and
- (e) The management expense ratio of a segregated fund for a financial year of less than 12 months shall be annualized.
- (5) The audited financial statements of the segregated fund shall set out in appropriate detail the amounts of all fees and charges and other expenses, if any, which have been charged to the segregated fund during the period covered by the financial statements.

PART X – INVESTMENTS:

10.1 Investment Policy of the Segregated Fund:

- (1) The insurer shall include a brief statement in the information folder of the investment policy of the segregated fund addressing each of the following matters:
 - (a) the objectives of the segregated fund including the investment style or parameters of the investment portfolio;
 - (b) use of the segregated fund's earnings;
 - (c) disclosure, at a minimum, of the following principal risks, if applicable to the segregated fund: interest rate risk; foreign currency risk; credit risk; sovereign risk; market risk; special equities risk; real estate risk; and derivative risk. State whether or not the segregated fund uses leverage, and if so, the manner by which it controls the risk related to this leverage (e.g., use of secondary funds, diversification, etc.); and
 - (d) where the segregated fund is an index fund, disclosure that as a result of investment decisions for the segregated fund being based on one or more permitted indices, the segregated fund may have more of the net assets of the segregated fund invested in one or more issuers than is usually permitted for segregated funds, and disclosure of the risks associated with that fact, including the possible effect of that fact on the liquidity and diversification of the segregated fund, the ability to satisfy redemption requests and on the volatility of the segregated fund.
- (2) The insurer shall abide by all of the following limits:
 - (a) the sum of the segregated fund's exposures to any one corporate entity may not exceed 10% of the value of the fund. Exposure may take the form of securities issued by the entity, loans to the entity recorded on the face of the financial statements or credit exposure (expressed as "credit equivalent amount") to the entity;
 - (b) Section 10.1(2)(a) above shall not apply to a segregated fund that:
 - (i) is an index fund;
 - (ii) includes the word 'index' in the name of the fund; and

- (iii) discloses the derivative investment strategy, if the fund employs a derivative investment strategy to match the index;
- (c) as a matter of investment policy, at the time of making an investment, an insurer shall not seek to invest in the securities of a company in order to exercise control or management of it. However, should an insurer ultimately gain control or management of a company due to market forces, such as through realization procedures, such a circumstance is not prohibited;
- (d) where more than 10% of the market value of the segregated fund is or will be invested in mortgages, state the method used to determine the market value of the mortgages. This method must provide for the categorization of mortgages based on risk, and within each category, mortgages are to be valued at a principal amount based on the following: the prevailing rate of return; the duration; the relationship between the current interest rates and the interest rate of the mortgage for that category; and, the statutory requirements relating to wrap-around mortgages, where applicable; and
- (e) where more than 10% of the market value of the fund is or will be invested in real estate for the production of income, state the method used to determine the market value of the real estate. This method must include the following: the initial market value shall be equal to the cost of acquiring the real estate including professional fees and other costs; each parcel of real estate must be appraised by an independent qualified appraiser at least once every 3 years; each parcel of real estate must be appraised at least once a year by a qualified appraiser and may include an updating of previous appraisals; for dates where no appraisal is available, the insurer must provide a monthly market value; all appraisals in any one year must be scheduled at regular intervals over the year; where a material change in the condition of any real estate held in the segregated fund occurs that could materially affect the fund's market value, the insurer must immediately arrange for an appraisal by an independent qualified appraiser of such real estate and adjust the valuation of it at the next monthly valuation date after the appraisal is made.

10.2 Derivatives:

(1) Use of Derivatives Instruments in an Unlevered Portfolio:

Where the investment policy of a segregated fund states that leverage will not be used, the notional amount of derivatives used by the segregated fund shall not exceed 100% of the value of the net assets of the segregated fund, subject to a short-term 2% variation depending on movements in the foreign exchange value of the currency in which the units of the fund are offered. In those instances, where derivatives add to the market exposure of the segregated fund (e.g., through a long position in a futures contract, swaps, call financial options, or a short position in a put financial option), the segregated fund will hold cash which together with any margin on account are equal to the notional value of any derivative instrument held. Where the derivatives provide negative market exposures to the segregated fund (e.g., a short position in a futures contract, swap, call financial option or a long position in a put financial option), the segregated fund must hold a position in the underlying instrument in the portfolio or an equivalent long position equal to the notional value of the derivatives instrument held.

Derivatives may be used in hedging positions recorded on the face of the financial statements and positions disclosed in the notes to the financial statements, to generate income (by sale of covered calls) or for replication of an index.

For segregated funds using derivatives to change the asset

exposure and currency exposure, the notional value of the derivatives relating to assets shall be measured independently of those relating to currency so that the currency positions do not independently exceed the net assets of the segregated fund.

(2) Use of Derivatives Instruments in a Levered Portfolio:

Where the investment policy of a segregated fund specifically states that leverage will be or may be used, derivatives may be used to create this leverage if all of the following conditions are met:

- (a) no more than 20% of the net assets of the segregated funds will be invested in any particular trading strategy or approach using leverage;
- (b) the segregated fund will isolate each levered trading strategy or approach in limited liability secondary funds in order to protect the segregated fund from losing more than 20% of the net assets of the segregated fund on that strategy;
- (c) on a quarterly basis, the management of the segregated fund will make such risk management studies as it deems prudent to ensure that each of the levered strategies anticipated for a segregated fund is relatively independent of other such strategies (e.g., low correlation, etc.); and
- (d) where leverage is being used, the contractholder shall be informed in the information folder of the historical and anticipated risk level of the segregated fund with such measures as standard deviation.

(3) Over-the-Counter Derivatives Instruments:

Where over-the-counter derivatives instruments are used, the following conditions must be met:

- (a) a calculation of the counterparty exposure amount must be made at least monthly for each counterparty and such exposure to any counterparty taken together with any exposures recorded on the face of the financial statements must not exceed 10% of the net assets of the segregated fund for any individual counterparty; and
- (b) fund managers are prohibited from making derivative contracts on behalf of the segregated fund with the sponsoring insurer or any entity controlled by, or in control of, the sponsoring insurer, or in the control of an entity in control of the sponsoring insurer.

(4) Valuation of Derivatives:

Positions in derivative instruments shall be valued at the current market value thereof.

Where a covered clearing corporation financial option, financial option on futures or over-the-counter financial option is written, the premium received by the segregated fund shall be reflected as a deferred credit that shall be valued at an amount equal to the current market value of the clearing corporation financial option, financial option on futures or over-the-counter financial option that would have the effect of closing the position. Any difference resulting from revaluation shall be treated as an unrealized gain or loss on investment. The deferred debit or credit shall be included in determining the net asset value of the segregated fund. The securities, if any, which are the subject of a written clearing corporation financial option or over-the-counter financial option shall be valued at their current market value.

The value of a futures contract, or a forward contract, shall be the gain or loss with respect thereto that would be real-

ized if, on the valuation date, the position in the futures contract, or the forward contract, as the case may be, were to be closed out unless "daily limits" are in effect, in which case fair value shall be based on the current market value of the underlying asset.

Margin paid or deposited in respect of futures contracts and forward contracts shall be reflected as an account receivable and margin consisting of assets other than cash shall be noted as held as margin.

In accordance with Section 13.2(4)(e), the value of written clearing corporation financial options, positions in future contracts and positions in forward contracts determined in accordance with this paragraph shall be disclosed in the statement of investment portfolio of the segregated fund.

10.3 Investments in Another Fund:

- (1) Notwithstanding Section 10.1(2), an investment in a secondary fund is permitted by a segregated fund (the "principal fund"), provided that the following conditions are met:
 - (a) adequate disclosure of this practice is made in the information folder;
 - (b) the principal fund establishes a unit value;
 - (c) there is disclosure in the information folder of any management fees or sales charges by the principal and the secondary fund. These fees or charges are to be included in the calculation of the management expense ratio of the principal fund. Where a principal fund invests in a secondary fund of the same insurer or of an entity controlled by, or in control of, the insurer or in the control of an entity in control of the insurer, there shall be no duplication of management fees or sales charges;
 - (d) where an investment in a secondary fund is greater than 20% of the assets of the principal fund, there is disclosure in the information folder of those assets held in the secondary fund if not otherwise disclosed in the audited financial statements of the principal fund; and
 - (e) the investment policy of the principal fund continues to be followed.
- (2) In addition, an investment in a secondary fund is permitted by a segregated fund (the "principal fund"), provided that the following conditions are met:
 - (a) as required by Section 8.11, the insurer's corporate name shall be printed in full on the front cover of the information folder and should identify the insurance company name and logo more prominently than the name or logo of the secondary fund or any other entity associated with the secondary fund;
 - (b) in the event that the name of the segregated fund includes the name of the entity associated with the secondary fund, additional disclosure should be provided to clearly indicate that the individual variable insurance contract is issued by the insurance company, and that the insurance company is providing all guaranteed benefits under the contract;
 - (c) the Executive Summary must state that the contractholder is purchasing an insurance contract and is not a unitholder of the underlying mutual fund;
 - (d) comprehensive disclosure of the fundamental investment objectives and policies of the secondary fund shall be included in the information folder;
 - (e) disclosure shall be made that the fundamental investment objectives of the secondary fund cannot be

changed unless approved by the unitholders of the secondary fund, and that upon such approval, segregated fund contractholders will be given notice of such change;

- (f) contractholders must be advised, in the Information Folder and in the Annual Statement to the Contractholder, that copies of the simplified prospectus, annual information form, financial highlights and audited financial statements, or the disclosure documents required for the secondary fund, are available upon request;
- (g) all contract charges should be described and distinguished from fund charges under one common heading in the information folder, and the individual elements of the management expense ratio ("MER") of the principal fund shall be disclosed as either: (i) the MER and management fee of the principal fund (each including the corresponding MER and management fee of the secondary fund) or (ii) the MER of the secondary fund, plus the management fee and administrative expenses of the principal fund;
- (h) Section 13.2(4) shall be complied with by disclosing the top 25 holdings of the secondary fund or, if there is more than one secondary fund, by disclosing the top 5 holdings of each of the secondary funds.

10.4 Illiquid Investments:

Where in the case of any investment there is no marketplace where such investment may normally be purchased and sold and public quotations in common use in respect thereof are not available, such investment will be considered to be an illiquid investment notwithstanding the fact that any party has agreed to purchase the investment. Examples of illiquid investment include, but are not limited to: limited partnership interests that are not listed; non-publicly traded securities; and, over-the-counter financial options entered into for non-hedging purposes. However, over-the-counter financial options entered into for hedging purposes in accordance with Section 10.2(2) of these Guidelines are not deemed to be illiquid investments. In addition, limited liability vehicles or secondary funds used to protect against excessive loss where leverage is being used are not deemed to be illiquid investments, provided that the underlying securities are themselves not illiquid investments.

Subject to the specific provisions set out below respecting certain types of segregated funds, in general, a segregated fund shall not, without prior written notice to the applicable Insurance Regulators, invest more than 10% of its net assets (taken at market value at the time of the investment) in illiquid investments.

10.5 Real Estate:

- (1) Where a segregated fund invests in real estate, the investment policy of the segregated fund must outline the insurer's purchase and sale of real estate in respect of the fund over the last five years. In addition, the investment policy must state the following:
 - (a) that no investment can be made in real estate except for the production of income;
 - (b) that the segregated fund is not permitted to invest in raw or undeveloped land;
 - (c) an insurer shall not sell or transfer real estate investments from or to a segregated fund of the insurer, to or from another fund of the insurer at other than its fair value as determined by an independent qualified appraiser;
 - (d) that the segregated fund is not permitted to invest more than 10% of its assets in real estate, unless the segregated fund is a real estate fund;

- (e) that the segregated fund is not permitted to invest in real estate until its net assets are equal to or greater than \$10,000,000;
- (f) where more than 10% of the segregated fund's market value is invested or will be invested in real estate for the production of income, state the methods used to determine the market value of the real estate, consistent with the following:
- (i) the initial market value is the cost of acquiring the real estate including professional fees and other acquisition costs;
 - (ii) an independent qualified appraiser must appraise each parcel of real estate at least once every three years;
 - (iii) a qualified appraiser must appraise each parcel of real estate at least once a year and may include an updating of previous appraisals;
 - (iv) the insurer must determine a monthly market value at dates for which an appraisal is not available based on the price the real estate would bring if sold on the open market after a reasonable time to a knowledgeable purchaser;
 - (v) all appraisals in any year must be arranged so that the valuations of the market value of individual parcels of real estate are made at regular intervals over the year;
 - (vi) the insurer shall ensure that the contents of appraisal reports and the valuation methodologies used in appraisal reports meet the minimum standards of the Appraisal Institute of Canada, which are contained in the Uniform Standards of Professional Appraisal Practice with the Canadian Supplement, and the Handbook for Appraisal Guidelines, as amended from time to time;
 - (vii) in the event of a material change in the condition of any real estate held in the fund that may affect the market value of the segregated fund, the insurer must immediately arrange for the appraisal of it by an independent qualified appraiser, and adjust the valuation of the real estate at the next monthly valuation after the appraisal is made; and
- (g) where a segregated fund is invested in real estate over 30% of the net asset value of the fund, that there are minimum levels that must be met as a percentage or amount of the total net asset value of the segregated fund held in liquid assets, as follows:

<u>Net asset Value of the Fund</u>	<u>Minimum amount to be Maintained in Liquid Assets</u>
\$10,000,000 to \$20,000,000	10% of net asset value of the fund
\$20,000,000 to \$30,000,000	\$2,000,000 plus 9% of net asset value of the fund over \$20,000,000
\$30,000,000 to \$40,000,000	\$2,900,000 plus 8% of net asset value of the fund over \$30,000,000
\$40,000,000 to \$50,000,000	\$3,700,000 plus 7% of net asset value of the fund over \$40,000,000
\$50,000,000 or more	\$4,400,000 plus 6% of net asset value of the fund over \$50,000,000.

- (2) A segregated fund may invest in a joint venture arrangement in respect of real estate only if:
 - (a) the fund's interest in the joint venture arrangement is not subject to any restriction on transfer other than a right of first refusal, if any, in favour of the joint venturers;
 - (b) the fund has a right of first refusal to buy the interests of joint ventures; and
 - (c) the joint venture arrangement provides an appropriate buy-sell mechanism to enable the fund to cause the joint venturers to purchase the fund's interest or to sell their interests to the fund.
- (3) A segregated fund shall not lease or sublease to any person any real estate, premises or space where that person and its affiliates would, after the contemplated lease or sublease, be leasing or subleasing real estate, premises or space having a fair market value net of encumbrances in excess of 20% of the net asset value of the fund.
- (4) A segregated fund shall not enter into any transaction involving the purchase of real estate or real estate improvements thereon and the leasing thereof back to the vendor where the fair market value net of encumbrances on the real estate being leased to the vendor together with all other real estate being leased by the fund to the vendor and its affiliates is in excess of 20% of the net asset value of the fund.
- (5) No units of a real estate segregated fund shall be issued under an individual variable insurance contract unless the premium relating thereto is fully paid for in cash. No individual variable insurance contract shall be issued, directly or indirectly, as consideration for real estate or services. No acquisition of real estate shall be made by a segregated fund on the condition or understanding that the vendor of the real estate subscribe for individual variable insurance contracts held in the segregated fund.
- (6) No investments can be made in any one parcel of real estate to an extent of more than 10% of the market value of the segregated fund's assets at the time of making the investments, except for the amount transferred by an insurer to establish a segregated fund, and no more than 25% of the transferred amount can be invested in any one parcel of real estate.
- (7) Unless a segregated fund has either reserved the right in its discretion to purchase real estate in its information folder or is a real estate fund, it must not participate in the purchase of real estate, other than real estate acquired from foreclosure of mortgages held by the segregated fund.
- (8) If on a redemption date a real estate segregated fund is unable to redeem all individual variable insurance contracts in respect of which redemption has been requested, redemptions shall be made "pro rata".

10.6 Mortgages:

- (1) Where a segregated fund invests in mortgages the investment policy of the segregated fund must state the following:
 - (a) that no investments can be made in any one mortgage to an extent of more than 5% of the market value of the segregated fund's assets at the time of making the investments, except for the amount transferred by an insurer to establish a segregated fund, and that no more than 25% of the transferred amount can be invested in any one mortgage;
 - (b) except for a mortgage approved or insured under the National Housing Act (Canada), which must be trans-

ferred at market value, state that the insurer cannot sell or transfer mortgage investments from or to a segregated fund of the insurer, to or from another fund of the insurer. A sale or transfer of a mortgage investment to a segregated fund from another fund of the insurer within 60 days of the first advance under the mortgage shall not be considered as a sale or transfer where there has been no material change in value since the date of the first advance. However, a sale or transfer may be made provided that such sale or transfer is effected at fair value as determined by an independent qualified appraiser;

- (c) where more than 10% of the segregated fund's market value is invested in mortgages or will be invested in mortgages, state the methods used to determine the market value of the mortgages, consistent with the following:

(i) all mortgages must be divided into categories of similar risk characteristics. Certain mortgages must be placed in their own category, such as: leasehold mortgages; participation mortgages; mortgages on land only; construction mortgages and mortgages in default over 6 months;

(ii) mortgages in each category must be valued at a principal amount that will produce the prevailing rate of return of new mortgage loans in that category and for an assumed duration. Refer to the remaining term to maturity, the period remaining until the date the mortgage can be repaid, and the relationship between the interest rate of the mortgage and the current existing market interest rates for that category of mortgages; and

(iii) to calculate the value of a wrap-around mortgage, the wrap-around mortgage and the original mortgage shall each be valued separately, as set out in subparagraph (ii), and the value of the mortgage or mortgages must be deducted from the value of the wrap-around mortgage; and

- (d) where a segregated fund is invested in mortgages over 30% of the net asset value of the fund, there are minimum levels that must be met as a percentage or amount of the net asset value of the segregated fund held in liquid assets, as follows:

<u>Net Asset Value of the Fund</u>	<u>Minimum Amount to be in Liquid Assets</u>
Less than \$1,000,000	25% of net asset value of the fund
\$1,000,000 or more and less than \$2,000,000	20% of net asset value of the fund or \$250,000 whichever is greater
\$2,000,000 or more and less than \$5,000,000	15% of net asset value of the fund or \$400,000 whichever is greater
\$5,000,000	10% of the net asset value of the fund or \$750,000, whichever is greater.

- (2) A segregated fund is not permitted to invest in mortgages until its net assets are equal to or greater than \$350,000.
- (3) A segregated fund is not permitted to invest more than 10% of its assets in mortgages, unless the segregated fund is a mortgage fund. Only mortgages, representing up to 75% of the fair market value of the real estate as appraised by a qualified appraiser, unless insured, on real estate situated within Canada are permissible investments.

- (4) In addition to the general requirements for segregated funds set out in these Guidelines, a segregated fund held as a mortgage fund must comply with the following additional requirements:

(a) "Liquid" or "liquidity" means,

(i) cash and treasury bills or other evidences of indebtedness issued, or fully guaranteed as to principal and interest, by:

(A) any of the Federal, Provincial or Territorial Governments of Canada or an agency thereof,

(B) the Government of the United States or any political subdivision thereof, the Government of any sovereign state or any super-natural agency, provided that such treasury bills or other evidences of indebtedness have an approved credit rating; or

10.8 Non-Arm's Length Transactions:

A segregated fund shall purchase an investment based on its prevailing market price, or where an investment is purchased other than through normal market facilities, based on what would have been its reasonably negotiated price with an arm's length party.

PART XI – PARTITIONING OF ASSETS HELD IN SEGREGATED FUNDS:

11.1 General:

This Part applies to the partitioning of assets within a segregated fund, other than as a routine internal accounting practice performed in the ordinary course of business, in order to effect a merger or other reorganization of a segregated fund.

11.2 Equitable Allocation:

Where an insurer wishes to partition assets within a segregated fund, the insurer shall determine that the allocation of assets is equitable to all variable insurance contractholders whether or not their variable insurance contracts are registered or non-registered, or were purchased by way of individual or group contracts.

11.3 Notice to Contractholders:

Each contractholder and each applicable Insurance Regulator shall receive written notice by regular mail to their last known address of such a partitioning of assets within a segregated fund at least 60 days prior to its occurrence. If the partitioning of assets occurs in conjunction with a merger of segregated funds, then the notice shall describe both events, and comply with Part XII below. If the partitioning of assets is not done in conjunction with a merger of segregated funds, then the notice shall explain why the insurer is partitioning the assets of the fund.

11.4 Terms of the Contract:

It is the duty of the insurer to satisfy itself that any partitioning of assets within a segregated fund complies with the terms of the individual and group variable insurance contracts that it has issued with respect to such a segregated fund.

PART XII – FUNDAMENTAL CHANGES AND MERGER OF SEGREGATED FUNDS

12.1 Merger with Another Segregated Fund of the Same Insurer:

From time to time, an insurer offering segregated funds as an investment under individual variable insurance contracts may wish to merge one of its segregated funds with another one (or more) of its segregated funds. The following additional steps are required to be taken:

- (a) The documents that create and support the merger shall be filed with the applicable Insurance Regulator(s) and shall provide the following information:
 - (i) all relevant legal and financial documents setting out the particulars of the two or more segregated funds proposed to be merged (the "terminating funds"), including a list of all affected contractholders from the terminating funds;
 - (ii) the method of merger (e.g., short form vertical amalgamation) of the terminating funds and the details of the managerial and custodial arrangements made for the resulting segregated fund (the "continuing fund"), including the details of any partitioning of assets from the terminating funds, as set out in Part XI above;
 - (iii) the benefits and rights that accrue to the affected contractholders under the continuing fund, including all details surrounding the assumption of any guarantees, rights, and the assumption of contract maturity dates for the continuing fund; and
 - (iv) any other information in connection with the steps to be taken under this Section that the applicable Insurance Regulator(s) requests.
- (b) Not less than 60 days prior to the date of the proposed merger, written notice of it shall be sent by regular mail to the affected contractholders of the terminating funds by the insurer responsible for the terminating funds to their last known addresses.
- (c) The written notice required in paragraph (b) above shall include an option permitting the affected contractholders of the terminating funds to "cash-out" their individual variable insurance contracts, without being charged any exit fees, provided that they give written notice of this election to their insurer at least 5 business days prior to the date of the proposed merger.
- (d) The written notice required in paragraph (b) above shall clearly state that if the contractholder chooses the "cash-out" option, rather than proceed with the merger, that the contractholder will receive the fair market value of the terminating fund held under the individual variable insurance contract, but will not receive the guarantee benefit, unless the individual variable insurance contract has reached maturity, or it coincides with the death benefit.

12.2 Merger with Another Segregated Fund of a Different Insurer:

Different insurers may wish to merge their segregated funds (the "terminating funds") into a "continuing fund" arising from the merger of the insurers themselves, or as part of the sale of a block of insurance business. In such event, the following steps are required to be taken:

- (a) The documents that create and support the continuing fund, resulting from the merger of the terminating funds, shall be filed with the applicable Insurance Regulator(s) by the insurer assuming the continuing funds, and shall provide the following information:
 - (i) all relevant legal and financial documents regarding the particulars of the terminating funds;
 - (ii) the method of merger of the terminating funds and the arrangements made for the continuing fund, including the details of any partitioning of assets from the terminating funds, as set out in Part XI; above;
 - (iii) a copy of the executed Transfer and Assumption Agreement between the different insurers of the terminating funds with respect to all relevant assets and liabilities that will accrue to the continuing fund, including a copy of the executed Certificate of Assumption;

- (iv) the benefits and rights that accrue to the contractholders under the continuing fund, including all details surrounding the assumption of guarantee rights, and the assumption of contract maturity dates for the continuing fund; and
- (v) any other information in connection with the steps to be taken under this Section that the applicable Insurance Regulator(s) requests.
- (b) The insurer assuming the continuing fund shall assume all guarantees and maturity dates in the continuing fund that arise from the terminating funds.
- (c) Written notice of the proposed merger shall be sent by regular mail to the affected contractholders of the terminating funds by each respective insurer to each contractholder's last known address.
- (d) It is the responsibility of the insurer assuming the continuing fund to disclose to the contractholders any significant income tax implications resulting from the proposed merger.
- (e) The written notice required in paragraph (c) above shall include an option permitting the affected contractholders of the terminating funds to "cash-out" their individual variable insurance contracts, without being charged any exit fees, provided that they give written notice of this election to their insurer at least 5 business days prior to the date of the proposed merger.
- (f) The written notice required in paragraph (c) above shall clearly state that if the contractholder chooses the "cash-out" option, rather than proceed with the merger, the contractholder will receive the fair market value of the terminating fund held under the individual variable insurance contract, but will not receive the guarantee benefit, unless the individual variable insurance contract has reached maturity, or it coincides with the death benefit.

12.3 Fundamental Changes:

- (1) An insurer shall notify the contractholder in writing at least 60 days before making any of the following changes:
 - (a) an increase in the management fee which may be charged against the assets of the segregated fund;
 - (b) a change in the fundamental investment objectives of a segregated fund;
 - (c) a decrease in the frequency with which units of segregated fund are valued; or
 - (d) an increase in the insurance fee limit specified pursuant to Section 12.3(4)(b).
- (2) The notice required under Section 12.3(1) shall:
 - (a) provide the contractholder with the right to:
 - (i) transfer within the individual variable insurance contract, and without affecting any other rights or obligations of the contractholder under the terms of that contract, to a similar segregated fund offered by the insurer that is not subject to the fundamental change for which the notice is being delivered without incurring any deferred sales charges or similar fees, provided that the contractholder's election is received by the insurer at least 5 days prior to the expiry of the notice period required by section 12.3(1); or
 - (ii) if the insurer does not offer a similar fund, redeem the units of the segregated fund without incurring any deferred sales charges or similar fees, provided that the contractholder's election

is received by the insurer at least 5 days prior to the expiry of the notice period required by section 12.3(1);

- (b) be sent by regular mail to the affected contractholders at their last known addresses as shown on the records of the insurer;
- (c) During the notice period described above, an insurer may provide that a contractholder shall not be permitted to transfer to the fund subject to the change, unless the contractholder agrees to waive the right to redeem set out in Section 12.3(2).
- (d) The notice required by Section 12.3(1) shall be sent at the same time to the provincial/territorial insurance regulators and the CLHIA.

For the purposes of this Section, a similar segregated fund means a segregated fund that has comparable fundamental investment objectives, is in the same investment fund category (in accordance with fund categories published in a financial publication with broad distribution) and has the same or a lower management fee and insurance fee than the management fee and insurance fee of the segregated fund in effect at the time the notice is given.

- (3) An insurer proposing to make a fundamental change with respect to a segregated fund shall re-file the information folder in accordance with Section 4.2.
- (4) Insurance Fees:
 - (a) The Insurer may include an insurance fee as part of the management fee charged against the assets of the segregated fund or may separate it from the management fee. "Insurance fee" means an amount charged by the insurer with respect to the provision of insurance features of the individual variable insurance contract.
 - (b) If an Insurer separates the insurance fee from the management fee charged against the fund, then the insurer shall state in its information folder both the current insurance fee to be charged to each segregated fund and an insurance fee limit for each segregated fund. The insurance fee limit is the highest insurance fee that can be charged by the insurer before triggering the notification required by section 12.3(1). The insurance fee limit shall not exceed the current insurance fee plus the greater of 50 basis points and 50% of the current insurance fee.
 - (c) Any change to the insurance fee up to the maximum specified pursuant to Section 12.3(4)(b) shall be disclosed to the contractholder in the annual statement to contractholder pursuant to Section 5.4.

- (b) Where the segregated fund does provide for distributions of income and net capital gains, provide the following table:

and

- (c) the following table must be provided for all segregated funds:

Ratios and Supplemental Data

	[insert year]	[insert year]	[insert year]	[insert year]	[insert year]
Net assets (000's) ⁽¹⁾	\$	\$	\$	\$

Management expense ratio ⁽²⁾	%	%	%	%	
Portfolio turnover rate ⁽³⁾	%	%	%	%	

⁽¹⁾This information is provided as at [insert date of end of financial year] of the year shown, and is not required in respect of financial years prior to 2002. However, companies may choose to report this information for periods prior to 2002, if available. For funds that have had five financial year-ends as at the date this rule comes into effect, until such time as such information is provided for five consecutive years, companies should continue to deliver audited financial statements to contractholders together with the Information Folder. For funds that have had less than five financial year-ends, as at the date this rule comes into effect, financial highlights can be provided for the number of years that the fund has been in existence, in order to avoid the requirement to deliver audited financial statements with the Information Folder.

⁽²⁾The management expense ratio is based on total expenses for the stated period and is expressed as an annualized percentage of daily average net assets during the period.

⁽³⁾The Fund's portfolio turnover rate indicates how actively the Fund's portfolio adviser manages its portfolio investments. A portfolio turnover rate of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the year. The higher a fund's portfolio turnover rate in a year, the greater the trading costs payable by the fund in the year, and the greater the chance of an investor receiving taxable capital gains in the year. There is not necessarily a relationship between a high turnover rate and the performance of a fund. If the segregated fund is a fund-of-fund(s), the portfolio turnover rate shall be provided for the underlying fund(s).

- (2) Derive the selected financial information in the tables referred to in subsection (1) from the audited annual financial statements of the segregated fund.
- (3) Provide per unit amounts to the nearest cent, and provide percentage amounts to two decimal places.
- (4) Provide the selected financial information required by this Item in chronological order for each of the five most recently completed financial years of the segregated fund for which audited financial statements have been filed, with the information for the most recent financial year in the first column on the right of the table.
- (5) If the segregated fund was not in existence or was not available pursuant to an individual variable insurance contract for any year for which information would otherwise be required to be provided under subsection (4), the tables shall not include any information for that year and the segregated fund shall disclose by way of a note to the table that the information is unavailable because the segregated fund only came into existence or became available pursuant to an individual variable insurance contract on a date specified in that note.
- (6) The management expense ratio for any period less than a full financial year of a segregated fund shall be annualized.
- (7) If the basis of the calculation of the management fees or of the other fees, charges or expenses that are charged to the segregated fund is changed or is proposed to be changed and if the change would have had an effect on the management expense ratio for the

last completed financial year of the segregated fund if the change had been in effect throughout that financial year, disclose the effect of the change on the management expense ratio in a note to the appropriate table.

Do not include disclosure concerning portfolio turnover rate for a money market fund.

Instructions:

1. Calculate the segregated fund's portfolio turnover rate by dividing the lesser of amounts of the purchases and sales of portfolio securities for the financial year by the average of the value of the portfolio securities owned by the segregated fund in the financial year. Calculate the monthly average by totaling the values of portfolio securities as at the beginning and end of the first month of the financial year and as at the end of each of the succeeding 11 months and dividing the sum by 13. Exclude from both numerator and denominator amounts relating to all securities having a remaining term to maturity on the date of acquisition by the segregated fund of one year or less.
2. Calculate the management expense ratio of the segregated fund as required by Section 9.4.

ITEM 22. Auditor:

Provide the name and address of the independent accountant who performed the audit of the segregated fund.

Add the name of each reporting issuer in respect of which the insider is required to file an insider report in SEDI format. Search for and select each reporting issuer to be added from a database of all SEDI issuers provided for this purpose. Use the reporting issuer's SEDAR number or its legal name (in English or French) to conduct your search. Make sure you select the correct reporting issuer before you proceed further. If you are unable to find the reporting issuer that you are searching for, contact the reporting issuer or the SEDI operator for assistance. Note that the reporting issuer will not appear in your search results unless the reporting issuer has created an issuer profile in SEDAR and filed an issuer profile supplement in SEDI.

If the insider has ceased to be an insider of a reporting issuer added previously to the insider profile, see item 12 below.

10. Insider's relationship to reporting issuer

For each reporting issuer added under item 9 above, disclose all of the insider's relationships to that reporting issuer by selecting from the list of relationship types provided.

Optional Information

An insider profile filed in SEDI format may, at the option of the insider, contain the following additional information:

13. Additional contact information

For each reporting issuer added to the insider profile, the insider may provide another address at which the insider prefers to be contacted (such as a business address) or may provide contact information for another individual who is to be contacted by the securities regulatory authority instead of the insider. To provide additional contact information, check the applicable box under "Optional information" on the web page titled "Create insider profile – Enter information about the insider's relationship to the issuer".

14. Add name(s) of registered holder(s) of securities

If the insider is required to file an insider report in respect of securities owned indirectly or over which control or direction is exercised, the insider must provide the name of the registered holder of the securities at the time the insider report is filed. To assist the insider in complying with this requirement, for each reporting issuer added to the insider's profile the insider may add the name(s) of the registered holder(s) of securities of the reporting issuer that the insider is required to provide in an insider report.

To add the name(s) of the registered holder(s) for the reporting issuer, check the applicable box under "Optional information" on the web page titled "Create insider profile – Enter information about the insider's relationship to the issuer". Any name added to the insider's profile in this manner may be selected when an insider report is prepared in SEDI format and registered holder information is required. The full legal name of the registered holder must be provided in each case.

Securities beneficially owned directly but held through a nominee such as a broker or book-based depository are considered direct holdings.

Amending Insider Profile To Add a Reporting Issuer

If an insider that has previously filed an insider profile is required to file an insider report in SEDI format in respect of a reporting issuer that is not already disclosed in the insider profile, amend the insider profile to add the name of the reporting issuer, to disclose all of the insider's relationships to the reporting issuer and to provide the date the insider became an insider or the date of the previous paper filing, as applicable. Provide the information required in items 9, 10 and 11 above.

Certification

Prior to submitting an insider profile, the insider or the insider's agent must certify that the information is true and complete in every respect by selecting "Certify" on the web page titled "Create insider profile – Certify and file insider profile" and following the instructions provided for this purpose. In the case of an agent, the certification is based on the agent's best knowledge, information and belief but the insider is still responsible for ensuring that the information filed by the agent is true and complete. It is an offence to submit information that, in a material respect and at the time and in the light of the circumstances in which it is submitted, is misleading or untrue.

FORM 55-102F2**Insider Report**

An insider report filed in SEDI format shall contain the information prescribed below. The information shall be entered using the online version of this form accessible by SEDI users at the SEDI web site (www.sedi.ca). All references to web pages, fields and lists relate to the online version of the form.

If a position or transaction being reported by the insider involves an option, warrant, right or other derivative, the information prescribed by items 18 to 25 below must be included in the insider report, if applicable. For each reporting issuer in respect of which one or more positions or transactions are being reported by an insider, start by navigating to the web page titled "File insider report (Form 55-102 F2) – Select issuer" and then provide the information required in the circumstances.

1. Name of reporting issuer

Provide the name of the reporting issuer for the securities that are the subject of the insider report by selecting the reporting issuer's name from the list of one or more reporting issuer names added previously to the insider's profile. If the name of the applicable reporting issuer does not appear in the list, the insider's profile must be amended to add the name of the applicable reporting issuer before the insider report can be completed. A separate insider report must be completed for each reporting issuer in respect of which the insider has a reporting obligation.

2. Amended insider report

If the insider is amending information contained in an insider report filed previously in SEDI format, the amended insider report shall contain all of the information required to be disclosed in the previous insider report in its amended form.

If the insider is amending information contained in an insider report filed previously in paper format, select "Amend paper filing" on the "Amend insider transaction" web page and complete a new insider report in SEDI format containing all of the information required to be disclosed in the previous paper filing in its amended form. In the "General remarks" field on the "File insider report – Enter transaction information" web page, provide the date on which the previous paper filing was made.

3. Review issuer information

Review the information contained in the insider's profile with respect to the selected reporting issuer to ensure that it is correct. If required, select "Amend" to file an amended insider profile.

4. Review new issuer event reports

If the reporting issuer has filed an issuer event report that has not previously been viewed or that has been previously flagged for further viewing, the issuer event report will be displayed for review by or on behalf of the insider. If the insider's holdings of securities of the reporting issuer have been affected by an issuer event, the change in holdings must be reported.

5. Security designation

For each position or transaction being reported, provide the security designation for the applicable security or class of securities. For this purpose, select the applicable security designation from the list shown for the reporting issuer's outstanding securities.

If the applicable security designation does not appear in the list, check the "archived security designation" list containing designations of securities of the reporting issuer that are no longer outstanding and that may no longer be issued. Alternatively, check the "Insider defined security" list that will contain one or more security designations for the reporting issuer if any have been defined previously by or for the insider. In either case, if the applicable securities designation appears in the list, select it.

If the applicable security designation does not appear in any of the lists described above, the insider must define the applicable security designation. For this purpose, select the appropriate "Security category" by choosing "Debt", "Equity", "Issuer Derivative" or "Third Party Derivative" from the list provided. For purposes of the insider reporting requirement, "issuer derivative" means a derivative issued by the reporting issuer to which the insider reporting requirement relates and "third party derivative" means a derivative issued by a person or company other than the reporting issuer to which the insider reporting requirement relates. The security category selected will determine the nature of the information that is required to be reported in relation to positions or transactions involving the applicable security designation.

Next, create the "insider defined" security designation by selecting the most appropriate "Security name" from the list provided and, if applicable, use the "Additional description" field to enter any additional words used to describe the specific security or class of securities. For example, to provide the security designation of "Class A Preferred Shares, Series 1", select "Preferred Shares" from the "Security name" list and then type "Class A, Series 1" in the "Additional description" field.

Important Note: If the security or class of securities being designated is a security that has been issued by the reporting issuer, it is important to try to avoid creating an "insider defined" security designation. If a security designation has not been created by the reporting issuer in respect of a security or class of securities issued by the reporting issuer, contact the reporting issuer to request that the security designation be added to the list of security designations for the reporting issuer's outstanding securities in its issuer profile supplement. However, you must create an "insider defined" security designation if this becomes necessary to ensure that the insider report is filed on a timely basis.

Derivatives: If the security or class of securities being designated is an issuer derivative or a third party derivative, provide the security designation for the derivative and the security designation for the underlying security. See item 18 below. In addition, if the security or class of securities being designated is a third party derivative, the insider will have to provide the applicable security designation in all cases.

6. Ownership type

Indicate whether the securities in respect of which a position or transaction is being reported are (1) beneficially owned directly, (2) beneficially owned indirectly or (3) controlled or directed. Securities beneficially owned directly but held through a nominee such as a broker or book-based depository are considered direct holdings.

7. Identity of registered holder of securities where ownership is indirect or where control or direction is exercised

If beneficial ownership of the securities is indirect or if control or direction is exercised over the securities, provide the name of the registered holder of the securities. If the name of the registered holder has been previously added to the insider's profile in respect of the reporting issuer, select the name of the registered holder from the list shown. Otherwise, enter the full legal name of the registered holder in the field provided.

8. Opening balance of securities held (initial SEDI report only)

If the insider is filing an initial report in respect of securities held on becoming an insider or is reporting a change in a security or class of securities previously reported only in paper format, for each security or class of securities held directly or by a particular registered holder, disclose the initial number or amount of securities so held in the field provided for this purpose on the web page titled "File insider report – Opening balance on initial SEDI report (Non-Derivatives)", or the corresponding web page for derivatives, as applicable. For debt securities, provide the aggregate nominal value of the securities held.

If an opening balance of securities held is required to be disclosed, the information with respect to the "date of transaction" and "nature of transaction" required under items 9 and 10 below will be generated by the SEDI software application. The "date of the transaction" will be the date the insider became an insider or the date of the previous paper filing, whichever has been reported in the insider profile.

If the insider has previously filed a report in SEDI disclosing the balance of the security or class of securities held directly or by a particular registered holder, the opening balance of the security or class of securities so held is generated by the SEDI software application based on all previous reports filed in respect of the particular holding. If an initial SEDI report involves the holding of a derivative, see item 19 below.

9. Date of transaction

Provide the date of each transaction being reported using the fields provided for this purpose. Provide the "trade date" not the "settlement date".

10. Nature of transaction

Indicate the nature of each transaction being reported by selecting the most appropriate transaction type from the list provided for this purpose.

11. Number or value of securities acquired

Disclose the number or value of securities acquired for each transaction involving an acquisition of securities. For debt securities, provide the

aggregate nominal value. If the transaction involved the acquisition of an option, warrant, right or other derivative, see items 21 and 22 below.

12. Number or value of securities disposed of

Disclose the number or value of securities disposed of for each transaction involving a disposition of securities. For debt securities, provide the aggregate nominal value. If the transaction involved the disposition of an option, warrant, right or other derivative, see items 21 and 22 below.

13. Unit price or exercise price

Disclose the price per security paid or received by the insider for each transaction being reported, if applicable. Do not reduce the price being reported to reflect the amount of any commission paid. If the insider acquired or disposed of a security upon the exercise of an option, warrant, right or other derivative, report the exercise price per security. If the insider acquired or disposed of an option, warrant, right or other derivative, see item 23 below.

If the transaction involved consideration other than cash, provide the approximate fair value of the consideration in Canadian dollars and describe the consideration in the "General remarks" field. If no consideration was paid or received by the insider, check "Not applicable".

14. Currency

If the price paid or received in any transaction was in a currency other than Canadian dollars, provide the amount in that other currency and select the other currency from the list provided for this purpose.

15. Closing balance of securities held

After each new transaction being reported in respect of a security or class of securities held directly or through a particular registered holder has been entered, a new balance of the security or class of securities held directly or by the particular registered holder will be generated automatically by SEDI prior to filing. If the insider believes that the closing balance reported by SEDI is not correct, the closing balance calculated by the insider must be reported in the field provided for this purpose. The insider shall make all reasonable efforts to reconcile the balance calculated by SEDI with the balance believed by the insider to be correct. An incorrect balance may have resulted from an error in a previous insider report or from a failure to report a previous transaction.

16. General remarks

Provide additional information if necessary to provide an accurate description of each position and/or transaction in securities being reported. Information provided in this field will be accessible by the public.

17. Private remarks to securities regulatory authority

Using the field provided, the insider may disclose additional information with respect to the position or transaction being reported to staff of the securities regulatory authority. Information provided in this field will not be accessible by the public.

Holdings or Transactions Involving Derivatives

If a holding or transaction being reported by the insider involves an issuer derivative or a third party derivative, the additional information prescribed below shall be disclosed, if applicable. For this purpose, "issuer derivative" means a derivative issued by the reporting issuer to which the insider reporting requirement relates, and "third party derivative" means a derivative issued by a person or company other than the reporting issuer to which the insider reporting requirement relates.

18. Security designation of derivative and underlying security

Provide the security designation for the derivative in the manner described under item 5 above. Next, select the appropriate security category for the underlying security from the list provided and then provide the security designation for the underlying security in a similar manner to that described under item 5 above. If the security or class of securities being designated is a third party derivative, the insider will

have to define the applicable security designation in all cases. If the derivative security has been defined by the insider, the underlying security must also be defined by the insider.

19. Opening balance of derivative securities or contracts held (initial SEDI report only)

If the insider is filing an initial report disclosing an option, warrant, right or other derivative held on becoming an insider or is reporting a change in such a derivative not previously reported in SEDI format, for each such derivative position so held directly or by a particular registered holder, disclose the initial number of derivative securities or contracts held in the field provided for this purpose.

20. Opening balance of equivalent number of underlying securities (initial SEDI report only)

If the insider is filing an initial report of an option, warrant, right or other derivative held on becoming an insider or is reporting a change in any such derivative not previously reported in SEDI format, for each such derivative position held directly or by a particular registered holder, disclose the actual or notional number or amount of underlying securities that may be acquired or disposed of upon exercise or settlement of such derivative. If the underlying securities are debt securities, provide the aggregate nominal value of the actual or notional amount of underlying debt securities that may be acquired or disposed of upon exercise or settlement of such derivative.

21. Number of derivative securities or contracts acquired or disposed of

Disclose the number of derivative securities or contracts acquired for each transaction involving an acquisition of a derivative or the number of derivative securities or contracts disposed of for each transaction involving a disposition of a derivative.

22. Equivalent number of underlying securities acquired or disposed of

For each transaction involving an acquisition or disposition of a derivative, disclose the actual or notional number or amount of underlying securities that may be acquired or disposed of upon exercise or settlement of the derivative. If the underlying securities are debt securities, provide the aggregate nominal value of the equivalent amount of underlying debt securities that may be acquired or disposed of upon exercise or settlement of the derivative.

23. Unit price of derivative

Disclose the premium or other amount paid or received by the insider in connection with the acquisition or disposition of the derivative (per contract if applicable). If the premium or other amount paid or received was in a currency other than Canadian dollars, provide the amount in that other currency and select the other currency from the list provided for this purpose.

24. Conversion or exercise price of derivative

Provide the conversion or exercise price of the derivative by entering the amount in the field provided for this purpose (per underlying security if applicable). If the conversion or exercise price is in a currency other than Canadian dollars, select the relevant currency from the list provided for this purpose. If the conversion or exercise price of the derivative will adjust on one or more specified dates, provide the details of the adjustment terms in the "General remarks" field.

25. Date of expiry or maturity of derivative

If the derivative expires or matures on a given date, specify the date of expiry or maturity using the fields provided for this purpose.

Certification

Prior to filing an insider report, the insider or the insider's agent must certify that the information is true and complete in every respect. In the case of an agent, the certification is based on the agent's best knowledge, information and belief but the insider is still responsible for ensur-

ing that the information filed by the agent is true and complete. It is an offence to submit information that, in a material respect and at the time and in the light of the circumstances in which it is submitted, is misleading or untrue.

FORM 55-102F3

Issuer Profile Supplement

An issuer profile supplement filed in SEDI format shall contain the information prescribed below. The information shall be entered using the online version of this form accessible by SEDI users at the SEDI web site (www.sedi.ca). All references to web pages, fields and lists relate to the online version of the form.

1. Name of reporting issuer

Provide the name of the reporting issuer for which the issuer profile supplement is being created by searching for the reporting issuer using the reporting issuer's SEDAR number or the reporting issuer's legal name (in English or French). If the reporting issuer's name does not appear in the search results, an issuer profile must be created for the reporting issuer in SEDAR before proceeding further with any SEDI filings. See National Instrument 13-101 *System for Electronic Document Analysis and Retrieval (SEDAR)*.

2. Name of insider affairs contact

Provide the full legal name of an individual who will act as "insider affairs contact" for the reporting issuer. Use the "Family name" and "Given names" fields for this purpose. Use upper and lower case letters as applicable. Do not use initials, nicknames or abbreviations. SEDI will automatically deliver an e-mail message to the e-mail address provided for the insider affairs contact each time an insider profile or an amended insider profile is filed by or on behalf of a person or company disclosing an insider relationship with the reporting issuer. This is intended to assist the reporting issuer in identifying any incorrect or inappropriate SEDI filings made in respect of the reporting issuer. Insider affairs contact information is not accessible by the public.

3. Address of insider affairs contact

Provide a business address for the insider affairs contact. Indicate the country and provide the address (street name and number, etc.), the municipality (city, town, etc.), province, territory or state and postal or zip code, as applicable. A post office box or similar mailing address is not acceptable.

4. Telephone number and e-mail address of insider affairs contact

Provide a business telephone number and a business e-mail address for the insider affairs contact.

5. Fax number of insider affairs contact (if applicable)

If available, provide a business fax number for the insider affairs contact.

6. Confidential question and answer

Provide a "confidential question" and an answer to the confidential question for use in identifying the issuer's representative if a request is being made to the SEDI operator for a new issuer access key. Keep a record of the confidential question and answer in a secure location.

7. Security designations

Provide the security designation for each outstanding security and each class of outstanding securities of the reporting issuer being profiled. For each security or class of securities, select the appropriate "Security category" by choosing "Debt", "Equity" or "Issuer Derivative" from the list provided. Then provide a designation of the security or class of securities using the fields provided for this purpose, as follows. First, select the "Security name" from the list of generic security names provided. Second, if applicable, enter any additional words used to describe the specific security or class of securities. For example, to provide the

designation of "Class A Preferred Shares, Series 1", select "Preferred Shares" from the "Security name" field and then type "Class A, Series 1" in the "Additional description" field.

If the security whose designation is being added is an issuer derivative, provide the designation of the underlying security or class of underlying securities in addition to the designation of the issuer derivative itself. First, select the applicable securities category for the underlying security and then provide the designation for the underlying security using the "Security name" and "Additional description" fields in the same manner as described above.

8. Amending a security designation

If there is any change in the security designation disclosed previously for a security or class of securities of the reporting issuer that is outstanding or that may be issued in the future, use the "Amend security designation" function to amend the applicable security designation in the issuer profile supplement. Select the applicable security designation to be amended and a web page with pre-populated fields containing the existing security designation information will be displayed for purposes of making the necessary amendment(s).

Note that a security designation should only be amended for corrections or for changes that do not result in the security or class of securities ceasing to exist. If a security or class of securities ceases to exist and is replaced by another security or class of securities, the "old" security must be archived in the manner described under item 9 below and a security designation must be added for the "new" security in the manner described under item 7 above.

If the security or class of securities affected by the change is an underlying security for an issuer derivative, use the "Amend security designation" function to amend the security designation of the underlying security as well.

9. Archiving a security designation

If any security or class of securities designated previously by the reporting issuer has ceased to be outstanding and the security or class of securities may no longer be issued, use the "Archive security designation" function to remove the relevant security designation from the reporting issuer's list of "outstanding securities" and place it in the reporting issuer's list of "archived securities". Archived security designations may not be reactivated if the applicable security or class of securities is re-issued or becomes subject to the issuance. In such circumstances, a new security designation must be added to the issuer profile supplement in the manner described under item 7 above.

Notice – Collection and Use of Personal Information

The personal information required under this form is collected on behalf of and used by the securities regulatory authorities set out below for purposes of the administration and enforcement of certain provisions of the securities legislation in British Columbia, Alberta, Saskatchewan, Manitoba, Ontario, Quebec, Nova Scotia and Newfoundland. Some of the required information will be made public pursuant to the securities legislation in each of the jurisdictions indicated above. Other required information will remain confidential and will not be disclosed to any person or company except to any of the securities regulatory authorities or their authorized representatives. **COMPANION POLICY 55-102CP
TO NATIONAL INSTRUMENT 55-102
SYSTEM FOR ELECTRONIC DISCLOSURE BY INSIDERS
(SEDI)**

PART 1 – PUBLIC AVAILABILITY OF SEDI INFORMATION

1.1 The securities legislation of several provinces requires, in effect, that information filed with the securities regulatory authority or, where applicable, the regulator under such securities legislation, be made available for public inspection during normal business hours except for information that the securities regulatory authority or, where applicable, the regulator,

- (a) believes to be personal or other information of such a nature that the desirability of avoiding disclosure thereof in the interest of any affected individual outweighs the desirability of adhering to the principle that information filed with the securities regulatory authority or the regulator, as applicable, be available to the public for inspection, or
- (b) in Alberta, considers that it would not be prejudicial to the public interest to hold the information in confidence, or
- (c) in Quebec, considers that access to the information could be prejudicial for the affected persons.

Based on the above mentioned provisions of the securities legislation, the securities regulatory authority or the regulator, as applicable, has determined that the information listed in Schedule A to this Companion Policy discloses personal or other information or such a nature that the desirability of avoiding disclosure of this personal or other information in the interests of the affected persons outweighs the desirability of making the information available to the public for inspection. In addition, in Alberta, the securities regulatory authority and the regulator consider that it would not be prejudicial to the public interest to hold the information listed in Schedule A to this Companion Policy in confidence and in Quebec, the securities regulatory authority considers that access to the information by the public in general could be prejudicial for the affected persons. Accordingly, the information listed in Schedule A to this Companion Policy will not be made publicly available.

1.2 The securities regulatory authority or the regulator, as applicable, has further determined that, in the case of information filed in SEDI format other than information listed in Schedule A to this Companion Policy, the requirement that this information be made available for public inspection will be satisfied by making the information available on the SEDI web site.

PART 2 – PRODUCTION OF SEDI FILINGS

2.1 The securities legislation of several provinces contains a requirement to produce or make available an original or certified copy of information filed under the securities legislation. The securities regulatory authority or the regulator, as applicable, considers that it may satisfy such a requirement in the case of information filed in SEDI format by providing a printed copy or other output of the information in readable form that contains or is accompanied by a certification by the regulator that the printed copy or output is a copy of the information filed in SEDI format.

PART 3 – JURISDICTION OF FILING

3.1 The SEDI software application located at the SEDI web site does not provide a SEDI user with the functionality to select the jurisdiction(s) in which a SEDI filing is being submitted for filing. However, the securities regulatory authority takes the view that the submission of information in SEDI format in accordance with the National Instrument constitutes the filing of that information under securities legislation if the information is required to be filed under the securities legislation.

PART 4 – DATE OF FILING AND CONDITIONAL FILING

4.1 Subject to section 4.2, the securities regulatory authority takes the

view that information filed in SEDI format is, for purposes of securities legislation, filed on the day that the transmission of the information to the SEDI server is completed. Following receipt by SEDI of information filed in SEDI format, SEDI will provide the SEDI user with the ability to print a copy of the filed information showing the date and time of receipt by SEDI.

4.2 Subsection 2.5(1) of the National Instrument provides that an individual who is a SEDI filer, a filing agent, or an authorized representative of a SEDI filer or filing agent, may use SEDI for the purpose of making SEDI filings. Subsection 2.5(2) of the National Instrument provides that, before using SEDI to make a SEDI filing, such an individual must register as a SEDI user by completing and submitting an online user registration form and delivering a manually signed paper copy of the completed user registration form to the SEDI operator, for verification. Since registration requires delivery of a signed paper copy of the completed user registration form to the SEDI operator for verification, the securities regulatory authority takes the view that a SEDI filing made by an individual who has not completed registration as a SEDI user in accordance with subsection 2.5(2) of the National Instrument is not a valid filing for purposes of securities legislation until such time as the individual making the SEDI filing has completed the registration process.

Despite the requirement to complete the user registration process before using SEDI to make filings, SEDI has been designed to permit an individual who has submitted the online user registration form to proceed to prepare and submit an insider profile as well as insider reports prior to the delivery and verification of the signed paper copy of the registration form. However, SEDI will assign a conditional status to any insider profiles or insider reports filed by an individual who has not completed the registration process. Consistent with the provisions of the National Instrument discussed above, SEDI filings that are conditional are not considered valid filings and are not made publicly accessible. If and when the individual making a conditional SEDI filing completes the registration process, any conditional SEDI filings will automatically cease to be conditional filings and will be made publicly accessible.

It is anticipated that signed paper copies of the registration form that are delivered to the SEDI operator for verification will be processed promptly upon receipt by the SEDI operator. If there is a problem with the verification process, the SEDI operator will attempt to resolve the problem by trying to contact the registering individual or using other appropriate means, which may involve referring the problem to the securities regulatory authority. It is preferred that registering individuals sign a computer printout of the online registration form for purposes of satisfying the requirement to deliver a signed paper copy of the form to the SEDI operator for verification.

PART 5 – OFFICIAL COPY OF SEDI FILINGS

5.1 For purposes of securities legislation, securities directions or any other related purpose, the securities regulatory authority takes the view that the official record of any information filed in SEDI format by a SEDI filer is the electronic information stored in SEDI.

PART 6 – COLLECTION, USE AND DISCLOSURE OF PERSONAL INFORMATION

6.1 The *Personal Information Protection and Electronic Documents Act* (Canada) (the “Federal Privacy Act”) requires an organization that is collecting, using or disclosing personal information to obtain the individual’s consent in most circumstances. While certain information filed in SEDI is personal information within the meaning of the Federal Privacy Act, the Act provides an exemption from the consent requirement in respect of personal information that is, by law, collected and placed in a public registry if the collection, use and disclosure relates directly to the purposes for which the personal information appears in the public registry. This exemption is based on the recognition that often there are legitimate primary purposes for which the personal information is collected, used or disclosed and, therefore, as long as the information is collected, used or disclosed for the primary purposes, no consent is required.

In Quebec, the *Act Respecting Access to Documents Held by Public Bodies and the Protection of Personal Information*, R.S.Q. c. A-2.1 (the "Public Sector Act") and the *Act Respecting the Protection of Personal Information in the Private Sector*, R.S.Q. c. P-39.1 (the "Private Sector Act") are both applicable to information filed in SEDI. Under the Public Sector Act, personal information which, by law, is public is not considered to be nominative (or personal) and, therefore, is not confidential. The Private Sector Act, which applies to persons engaged in carrying on an enterprise (excluding a public body within the meaning of the Public Sector Act and any person that holds information on behalf of the public body), requires an individual's consent to the use or disclosure of personal information concerning the individual in most circumstances. Further, this consent must be manifest, free and enlightened, and must be given for specific purposes. However, Bill 122, which will amend the Private Sector Act and which was introduced in the Quebec legislature on May 11, 2000, will harmonize the Private Sector Act with the Public Sector Act. Bill 122 provides that personal information which, by law, is public is not confidential. Consequently, if the Quebec legislature adopts Bill 122, the use and communication of publicly available information filed in SEDI will not be subject to the consent requirement in the Private Sector Act.

6.2 For purposes of determining the scope of the exemption from the consent requirement in the Federal Privacy Act discussed in section 6.1, the securities regulatory authority takes the view that the primary purposes for the collection, use and disclosure of personal information relating to insiders of reporting issuers and their security holdings in these issuers include the following:

- (a) protecting the investing public against unfair, improper or fraudulent use of material undisclosed information relating to publicly traded issuers;
- (b) enhancing the ability of investors to make well-informed investment decisions;
- (c) promoting efficiency in the capital markets;
- (d) promoting fair, honest and responsible market practices by market participants; and
- (e) promoting confidence in the transparent operation of the capital markets in Canada.

Loi de 2001 portant réforme de la rétribution des députés
(processus sans lien de dépendance)

REPORT
PURSUANT TO SECTION 1 OF THE
MPP COMPENSATION REFORM ACT
(ARM'S LENGTH PROCESS), 2001

THE HONOURABLE
GREGORY T. EVANS, C.M., O.Ont., Q.C.
INTEGRITY COMMISSIONER

TORONTO, ONTARIO
AUGUST 27, 2001

1. INTRODUCTION

An Act to amend the Legislative Assembly Act to provide an arm's length process to determine members' compensation received Royal Assent on June 29, 2001. The Act reads as follows:

"An Act to amend the Legislative Assembly Act to provide an arm's length process to determine members' compensation

Chapter: S.O. 2001, c.15

Her Majesty, by and with the advice and consent of the Legislative Assembly of the Province of Ontario, enacts as follows:

1. Subsection 61 (1) of the Legislative Assembly Act, as re-enacted by the Statutes of Ontario, 1996, chapter 6, section 7, is repealed and the following substituted:

Annual salary of members

(1) Every member of the Assembly shall be paid an annual salary of \$78,007 or such other amount as is determined under this section.

Salary review

(1.1) *The Integrity Commissioner appointed under the Members' Integrity Act, 1994 shall, at such intervals as he or she considers appropriate, review the salary paid to members under subsection (1) and determine the appropriate salary.*

Report

(1.2) *Following each review, the Integrity Commissioner shall prepare a report setting out the amount of the salary that he or she has determined.*

Tabling

(1.3) *The Integrity Commissioner shall cause a copy of the report to be delivered to the Speaker who shall, at the first opportunity, cause it to be tabled in the Assembly and published in The Ontario Gazette.*

Effective date

(1.4) *If the report provides for a salary change, the change takes effect on the day that the report is delivered to the Speaker and if the report so provides, an increase is retroactive to the date set out in the report.*

2. Section 75 of the Act, as re-enacted by the Statutes of Ontario, 1996, chapter 6, section 19, is repealed.

3. Section 75.1 of the Act, as enacted by the Statutes of Ontario, 1996, chapter 6, section 19, is repealed.

Commencement

4. This Act comes into force on the day it receives Royal Assent.

Short title

5. The short title of this Act is the MPP Compensation Reform Act (Arm's Length Process), 2001."

The Act requires the Integrity Commissioner to review the annual salary of Members at such intervals as he or she considers appropriate, and determine the appropriate salary, and if a change in the salary is directed, the report shall state the effective date of such change. The mandate of the Commissioner is restricted to the determination of Members' salaries, and not the additional compensation of those Members who have additional duties and responsibilities.

2. CONFLICT OF INTEREST

During discussions of the Bill in the Ontario Legislature, a Member opposed the appointment of the Integrity Commissioner on the basis that it provided an opportunity "for a perception of conflict of interest". The Office of the Integrity Commissioner has always taken the position that a "perception of interest" is in the eyes of the beholder and the Integrity Commissioner will only act when the conflict of interest is based on facts established beyond a reasonable doubt. Perception of impropriety, including perception of conflict of interest, is an individual subjective viewpoint of a situation which would appear improper to a reasonable, non-partisan, fully informed person. The problem with such an "appearance standard" is that there are few, if any, reasonable, non-partisan, fully informed persons.

Section 23.1 of the Members' Integrity Act, states:

"The Commissioner may exercise the powers and shall perform the duties assigned to him or her under this Act or any other Act."

The *Members' Integrity Act*, 1994, replaced the *Members' Conflict of Interest Act*, 1988. The Integrity Commissioner is appointed by the Lieutenant Governor in Council on the address of the Assembly and is an officer of the Assembly, and while the appointment is by Order-in-Council, it is a prerequisite that it be "on the address of the Assembly". The Act provides that no proceedings shall be commenced against the Commissioner for any act done or omitted in good faith in the execution of his or her duties under the *Members' Integrity Act* or any other Act; nor is he or she a competent or compellable witness in a civil proceeding outside the Assembly in anything done under that Act; nor is the office

subject to the *Freedom of Information and Protection of Privacy Act*, 1994.

These provisions were considered necessary to protect the confidentiality of information passing between the Members of the Legislative Assembly and the Office of the Integrity Commissioner, and to provide a measure of independence to the Commissioner.

As an Officer of the Assembly, the Integrity Commissioner's office has always maintained an arm's length relationship with the Members. The *Members' Integrity Act* requires all Members to make financial disclosure to the office, and it also requires the Commissioner to investigate and decide complaints against Members; to give advice; to prohibit certain activities and to recommend penalties if required. Complaints by the public are referred to Members of opposition parties and if considered to have merit, are investigated and adjudicated by the Commissioner.

I am satisfied that my acceptance of this undertaking does not compromise the integrity of the Office of the Integrity Commissioner. Officers of the Legislature include the Provincial Auditor, the Information and Privacy Commissioner and others who share the same degree of independence in their dealings with government officers and agencies. We maintain an arm's length position in any process involving the Members of the Legislature and the public whom we also serve.

3. CONSTITUTIONALITY

Doubt has been expressed as to the constitutionality of the legislation as being an improper delegation of authority. This question has been reviewed and I am satisfied for the reasons set forth below that the Legislative Assembly is acting within its jurisdiction in delegating to the Integrity Commissioner the power to review and determine MPP salaries. The fact that the pay raises of elected representatives are not passed by the Assembly is irrelevant to the delegation question.

The *Constitution Act* does not address the concept of delegation but governing through delegated authority has been an important part of Canada's history since Confederation. In the case of *Hodge v. The Queen* (1883), 9 App. Cas. 117, the Privy Council upheld a legislative scheme whereby the Legislative Assembly of Ontario had delegated to a Board of Licence Commissioners the power to make regulations for licensed taverns. The following passage from Lord Peacock's decision demonstrates the very broad scope provincial legislatures have to delegate powers within their jurisdiction:

... the objection thus raised by the appellants is founded on an entire misconception of the true character and position of the provincial legislatures. They are in no sense delegates of or acting under any mandate from the Imperial Parliament. When the British North America Act enacted that there should be a legislature for Ontario, and that its legislative assembly should have exclusive authority to make laws for the Province and for provincial purposes in relation to matters enumerated in sect. 92, it conferred powers not in any sense to be exercised by delegation from or as agents of the Imperial Parliament in the plenitude of its power possessed and could bestow. Within these limits of subject and area the local legislature is supreme, and has the same authority as the Imperial Parliament, or the Parliament of the Dominion, would have had under like circumstances to confide to a municipal institution or body of its own creation authority to make by-laws or resolutions as to subjects specified in the enactment, and with the object of carrying the enactment into operation and effect.

... It was argued at bar that a legislature committing important regulations to agents or delegates effaces itself. That is not so. It retains its powers intact, and can, whenever it pleases, destroy the agency it has created and set up another, or take the matter directly into his own hands. How far it shall seek the aid of subordinate agencies, and how long it shall continue them, are matters for each legislature, and not for Courts of Law, to decided. (Emphasis added)

In essence, the Privy Council decided that provincial legislatures have

constitutional authority to delegate powers within their jurisdiction under the *Constitution Act*.

In determining the constitutionality of the delegation to the Commissioner of the power to set MPPs salaries, the key consideration is whether the primary purpose of the scheme falls within the province's jurisdiction under section 92 of the *Constitution Act*. This is simply a case of the Legislative Assembly delegating its power to a subordinate entity. There is no doubt that jurisdiction over MPP salaries is within the exclusive legislative domain of the province. Subsection 92 (4) of the *Constitution Act* expressly provides for provincial jurisdiction over "The Establishment and Tenure of Provincial Offices and the Appointment and Payment of Provincial Officers".

The case of *Hollinshead v. Hazelton* (1916) A.C. 428 was referred to in one submission as authority for the proposition that only the legislative body can determine the salary of its members. This case dealt only with the issue of whether the salary of a bankrupt MP could be appropriated for the benefit of his creditors. The "historical" view cited speaks only to the original purpose of an MP's salary and only insofar as determining whether the salary of an MP is in fact "Salary". This case has nothing to do with delegation.

Based on the foregoing, it is my opinion the Legislative Assembly of Ontario is acting within its jurisdiction in delegating the power to review and determine MPP salaries.

4. HISTORY

After the election of the Harris Government in 1995, a five member commission of financial and actuarial experts under the Chairmanship of M. David R. Brown, F.S.A., FCIA, the Managing Partner of Eckler Partners Limited, was retained to examine the compensation of all elected Members of the Provincial Parliament and to recommend changes, as appropriate, paying particular attention to the existence of tax-free allowances and special indemnities and the government's announced intention to end the then existing pension arrangements.

On November 27, 1995, the Commission reported to the Minister of Finance and came to three main conclusions.

- (1) The current pension arrangement is overly generous and should be reduced.
- (2) The tax-free allowances not supported by documented expenses should be eliminated.
- (3) Any changes in the compensation of the Members should be made in the context of the total compensation as described in the report. The total compensation of Members should be measured against a benchmark reflecting private-sector norms and practices, and this benchmark should be updated regularly.

In 1996, the key recommendations of that Commission were adopted by the Legislative Assembly.

Although the Commission had recommended that the compensation should be updated regularly, no action was taken until May 2000, when a Commission on Members' Compensation was appointed by the Speaker of the Legislative Assembly, with M. David R. Brown as Chair and two other commissioners who had not served on the 1995 Commission.

The terms of that Commission included a review of the Members' salaries. Their report paid close attention to the methodology adopted in the November, 1995 Report and recommended a salary of \$103,458. In addition, it recommended a statutory provision to adjust the salaries each year for a period of not more than four years by the increase in the Industrial Average Index for Ontario, and that a successor Commission be appointed within that period to review the compensation issue.

No positive action was taken by the Legislative Assembly on the June 14, 2000 Report.

I also had the opportunity to review the May 29, 2001 report on com-

pensation for Members of the Federal Parliament as well as the Report of the Speaker's Commission dated June 14, 2000. I have also reviewed other reports dealing with compensation for Provincial Legislatures, Members of Federal Parliament, Municipal Councils and other comparables, excerpts of which I have attached to this Report as Appendices "A", "B", "C", and "D". Much of the statistical information herein is based on these reports. I agree with the principles of simplicity, accountability and fairness, which guided their considerations and appreciate that my assessment of the compensation must be fair not only to the Members of the Legislative Assembly, but also the public whom they serve.

The report of the Committee reviewing the salaries of the "Membres de L'Assemblée Nationale" of the Province of Québec dated November 8, 2000 was of particular interest and assistance since the mandate of the Committee included *inter alia* a specific direction to consider the remuneration of the Members of the Ontario Legislature and the Federal Parliament.

In an effort to solicit public participation, advertisements were inserted in the Toronto Star and The Globe and Mail, inviting citizens to make submissions. Fifty responses were received, including comments from the Canadian Taxpayers Federation and I am appreciative of all contributions. Quite naturally, as taxpayers, most were concerned about the cost of compensation increases and the timing of them, but generally there was recognition that a reasonable increase would be acceptable, but any substantial increase should be deferred until after the next election.

5. CONSIDERATIONS

The question of compensation for elected members of any public body whether municipal, provincial or federal is always a matter of public interest and discussion. The public demands a high degree of responsibility for those who hold elective office. We expect them to establish a stable economy that will provide a high standard of living, maximum employment, a good education for our children, proper medical care and a safe environment for all citizens. We want air and water that is not polluted. We demand that our natural resources be protected against exploitation and that our streets and communities be free of crime and corruption. Above all, we want to maintain that high degree of personal freedom that prevails in our society. In other words, we want our legislators to provide Peace, Order and Good Government, the underlying principles of our democratic way of life.

In order to achieve the optimum of our various demands, we require leadership at all levels of government. Our hierarchy of government – municipal, provincial and federal – may give the appearance of excessive government, however, if each operates within the limits of its proper jurisdiction, conflicts can be minimized and a proper division of responsibility maintained.

A democracy is not the most efficient form of government. But even the most benevolent dictatorship places restrictions on personal freedom and ultimately becomes an absolute dictatorship. The price to be paid for our form of democratic government is inconsequential when we consider the advantages that we enjoy.

The citizens of Ontario are entitled to a high standard of government. That can only be achieved by electing women and men of ability and integrity, and those important personal characteristics can be found at all levels of society. They are not the exclusive property of the highly educated or the wealthy. A good candidate or member is one who is approachable and who reflects the basic values that we all appreciate. Collectively, the Legislature should mirror the image of the electorate. It can only have the confidence and respect of the public when it demonstrates that a relationship of trust exists between the electors and the elected.

Members in discharging the obligations of their office have a dual responsibility. They represent their constituents and also are responsible for the manner in which they govern the Province of Ontario.

Salary should be appropriate to the demanding nature and responsibility

ties of the office in order to attract and retain women and men possessing the knowledge and ability required to fulfill the duties of an office which is the foundation of our democracy and of prime importance in maintaining a sound and stable government.

Compensation for Members of the Assembly must be fair to them and to the public. The usual method of determining compensation in labour arbitrations is to compare wages in comparable fields of industry or within the particular industry involved. There is usually a hierarchy of levels of skills and responsibilities upon which compensation is based. However, there is a minimum of comparables when reviewing the compensation of the Members of the Ontario Legislative Assembly, other than provincial Legislatures, the Federal Parliament, and City of Toronto Councillors.

Having served as Conflict of Interest Commissioner and Integrity Commissioner for over ten years, I am aware of the financial position of the Members during that period and have a reasonably good knowledge of the parliamentary activities in which they are involved and the many demands upon their time. There are, no doubt, various reasons, which motivate a person to run for the Ontario Legislature, but quite obviously from my research, it cannot be for financial reasons. When they seek re-election, I am convinced that their motive must be a desire to render public service.

Parliament and the Legislature are forums where important social, cultural, legal and economic issues that fashion the future of our country are decided. They should be places where informed discussion and intelligent debate occur with contributions from Members of all parties without the intervention of rude and raucous behaviour on the part of a few Members – behaviour that would not be tolerated in any school classroom.

National polls consistently confirm that the image of politicians reaches a lower level of popular approval and respect as each decade passes. Televised proceedings of the Legislative Assembly during Question Period have not been kind to the Members. The Members themselves have contributed to their decline in public support by conduct that would not be acceptable in any school.

Recently the Advocates' Society of Ontario considered it desirable to publish "The Advocates' Society Principles of Civility". The Preamble states:

"Civility among those entrusted with the administration of justice is central to its effectiveness and to the public's confidence in that system. Civility ensures matters before the court are resolved in an orderly way and helps preserve the role of counsel in the justice system as an honourable one."

This statement can be applied with equal force to Members of the Legislative Assembly. In the legal profession, lack of civility indicates a lack of personal professionalism that reflects adversely on the entire legal profession and a consequent loss of public respect. In politics, the rude and boorish conduct of a few unfairly creates the public image of the Assembly and diminishes public confidence. Whether politics is viewed as a profession or an avocation, Members, like lawyers, share a level of public approval that is discouragingly low. The remedial action necessary to elevate the level of public confidence in the Assembly rests with our elected Members.

A considerable portion of the Members' time is taken up with committee work when proposed legislation is discussed and formulated. Individuals and delegations attend and make representations on particular issues. This is an important part of the Members' duties and is generally conducted with a minimum of public notice or appreciation. They also examine the operation and performance of government departments to ensure that the interests of the public are properly represented and protected.

The Member is always under public scrutiny and constant media attention unlike any other profession or avocation, and they are subject, on occasion, to unreasonable demands from constituents that border on harassment.

Family life, particularly for Members outside Toronto, is continually

disrupted, with consequent stress on spouses and children. Travel throughout the constituency and to Toronto is time consuming and health demanding, and developing knowledge of parliamentary procedure and the specialized skill required to participate properly in debates is not easily acquired.

Finally, there is a further factor to be considered. Membership in the Legislature is not normally a lifetime career, but a limited period of contribution by a public-spirited citizen to public service during which time his or her normal business or professional calling is placed on hold. The termination of that public service may be made voluntarily by the Member for a myriad of reasons, or it may be involuntarily foreclosed by the will of the electorate. In either case, the readjustment in the return to a previous career, if available, or to a retraining for another career is no doubt accompanied by considerable stress and possibly financial loss.

6. CONCLUSION

I am fully aware of the responsibilities associated with this review. The Members of the Legislative Assembly of Ontario are entitled to fair compensation and the decision must be acceptable to a majority of the public.

The Members of the Ontario Legislature like Members of all legislatures, parliaments and municipal councils avoid granting themselves a salary raise. It is not a vote attracting process. Usually the matter is referred to an individual or a panel for review and to make a recommendation which is then debated by the Members. In this instance, the legislation requires the Integrity Commissioner to determine the compensation.

Members' duties have expanded in the last decade. Our continuously changing economic and social situations create complex issues, the solutions for which require input from Members who have the necessary experience, skills and knowledge. There is a general feeling among MPPs that while their constituency duties and activities closely approximate those of their federal counterparts, their benefits, including salaries, pensions, severances, allowances, and insurance coverage are considerably less or non-existent. The recent salary raise for a Federal backbencher exceeds that of Ontario Cabinet Ministers.

Ontario has reduced the number of constituencies from 130 to 103 to conform with the Federal constituency boundaries. This realignment and reduction of Members means that the workload of the present Members has increased.

Salary History of Ontario MPPs

Date	Basic Wage	Tax Free Allowance	Total
April 1990	\$44,675	\$14,984	\$59,659

There has been no change in the Members' salary since April 1990, other than in 1992 when their salary was reduced by 5.5%. The reduction was restored in 1996 by the Brown Commission when the tax-free allowance was eliminated, the pension plan revised and the salary restructured to the present salary of \$78,007, all of which became subject to tax.

According to the Conference Board of Canada's Annual Survey of all sectors of the economy, the overall cumulative wage increase in Canada from 1991 to 2000 was 31.9%; the average annual increase was 2.8%. The Consumer Price Index for the same period averaged 1.98% and the Average Industrial wage was 2.15%.

1997	1.6%	2.1%	3.0%
1998	0.9%	1.4%	3.2%
1999	1.7%	0.7%	2.0%
2000	2.7%	2.5%	2.3%
Total 1991–2000	21.6%	23.6%	31.9%
Average Annual Increase	1.98%	2.15%	2.81%

Clearly the Ontario Members over the above period are at an ever-increasing disadvantage as their salaries fall further behind each year. The question is how can this present situation be corrected? Substantial retroactive salary increases are not popular with the taxpayers, and the argument is advanced that Members at the time they ran for public office were aware of the salary attached to the position. In the public service and in the private areas, annual cost of living increases are the norm. Should these be rescinded because the employee was hired at a set salary? Is it fair to the present Members that they should be deprived of a practice which is generally followed in both the private and public sectors?

A multi-year salary freeze distorts the principle of fairness both to the Members and the taxpayer. The Member is deprived of benefits which upset the equivalence sought to be maintained with other comparables. It is unfair to the taxpayer because ultimately the day arrives when a "catch up" increase of a substantial amount is necessary to overcome obvious disparities. That happening causes public resentment and unfair criticism.

The public input which I have received recognizes the situation but overwhelmingly rejects any substantial adjustment until after the next election. I agree that catch-up adjustments should not be made prior to the next election.

In my opinion, the failure to provide for annual salary increments has placed the present members in an unfair position and I propose to correct this oversight by providing an annual increase of 3% on April 1, 2001, and each successive year, including the year in which the Writ for the next election is issued. These annual increases are the same as those provided for Metropolitan Toronto Councillors.

Immediately after the next election, the salary of the Members shall increase 25% until the first quadrennial review in 2005, at which time a complete assessment of the salary and pensions shall be undertaken to provide Ontario Members of Provincial Parliament compensation comparable to other provincial parliaments and a closer relationship to the Federal Parliament.

In the interim period between the date of the next election following release of this Report and the quadrennial review in 2005, the Members shall receive an annual increase in an amount equal to the Ontario Industrial Average Wage Index, not to exceed 7%, for the previous year as determined by Statistics Canada. These changes reflect the views suggested in the recent Federal Commission's Report which recommended the adoption of the adjustment formula for periodic adjustment and revision of salaries and the provision for the establishment of a quadrennial review in the recent amendments to the *Judges Act*.

DATED At Toronto, Ontario, this 27th day of August, 2001.

The Honourable Gregory T. Evans
Integrity Commissioner

APPENDICES

APPENDIX "A"

Salaries and Allowances for Provincial Legislatures
(as of August, 2001)

Legislature	Indemnity	Tax-Free Expense	Real Value Tax-Free Allowance	Total
Alberta**	\$48,802	\$20,526	\$28,633	\$77,435
British Columbia*	\$71,000	0		\$71,000
Manitoba*	\$61,519	0		\$61,519
Ontario*	\$78,007	0		\$78,007
Quebec**	\$71,714	\$12,789	\$19,181	\$90,895

* Manitoba, Ontario and British Columbia abolished their incidental expense allowance and gave their Members an increase in the base salary.

** Alberta tax rate is 39.5%; Quebec Tax Rate is 49.2%.

The above schedule shows that Ontario legislators are at a significant financial disadvantage when compared with Quebec (\$12,888). While the duties and responsibilities of the respective legislatures are similar in nature, Ontario's population of 11,669,300 is served by 103 members while Quebec with a population of 7,372,400 has 125 members.

APPENDIX "B"

Federal Salaries

In 2001, the Members of the House of Commons received a sessional indemnity of \$69,100 plus an incidental tax-free expense allowance of \$22,800.

The Lumley Report recommended that the tax-free expense allowance of \$22,800 be converted to \$40,400, being the equivalent taxable amount. The \$40,400 added to the sessional indemnity of \$69,100 amounted to \$109,500.

In order to compensate for the failure to receive annual increases to partially compensate for inflation and for the period between 1991 and 1997 when MP salaries were frozen, the Commission recommended an increase of 20% to \$131,400, effective April 1, 2001.

Legislation implementing the salary recommendations received swift passage in Parliament.

APPENDIX "C"

Metropolitan Toronto Councillors' Salaries

The remuneration of Members of Council of the City of Toronto for the period January 1, 1998 to December 31, 2000 was \$63,915.00 per year, one-third of which (\$21,305) is deemed to be for expenses incidental to the discharge of his or her duties as a Member of the Council. Assuming an average tax rate of 46.4%, that amount when restructured would amount to \$31,190, for a total indemnity of \$73,800 on December 31, 2000.

The City of Toronto Municipal Code provides for increases of 3% on January 1, 2001, January 1, 2002, and January 1, 2003.

As of January 1, 2001, Metro Toronto Councillors will receive a salary of \$65,832 with a tax-free component of \$21,944, which when restructured, amounts to \$32,126, for a total indemnity of \$76,014.

Date	Salary	Tax-Free Restructured Expenses	Real Value (Tax-Free) Component	Total
January 1, 2000	\$63,915	\$21,305	\$31,190	\$73,800
January 1, 2001	\$65,832	\$21,944	\$32,126	\$76,014

APPENDIX "D"

Determinations of deemed electricity production

2. (1) In this section,

"following year" means, with respect to a determination of a facility's deemed electricity production, the year following the year in which the determination is made;

"preceding year" means, with respect to a determination of a facility's deemed electricity production, the year preceding the year in which the determination is made.

(2) Subject to subsections (3) to (16), for the purposes of this Regulation, a generation facility's deemed electricity production shall be determined by the Director in accordance with the following formula:

$$A + B + C$$

where,

A = the amount of electricity generated by the facility in the preceding year,

B = if electricity was first generated by the facility in the preceding year, the amount of electricity that the owner of the facility estimates will be generated by the facility during the part of the following year that ends on the day before the second anniversary of the day electricity was first generated by the facility,

C = if electricity will first be generated by the facility after the end of the preceding year, the amount of electricity that the owner of the facility estimates will be generated by the facility during the following year.

(3) If the owner of a generation facility makes an estimate of an amount of electricity for the purpose of the definition of "B" or "C" in subsection (2) and the Director is of the opinion that the estimate is

too high, the Director may, for the purpose of that subsection, substitute a lower estimate made by the Director.

(4) Subsections (5) to (9) only apply to the determination of a generation facility's deemed electricity production if,

- (a) a previous determination of the facility's deemed electricity production was made;
- (b) the new determination is being made in the second year after the previous determination; and
- (c) when the previous determination was made, the amount of "B" or "C" that was used for the purpose of subsection (2) was greater than zero.

(5) In subsections (6) and (7),

"completed production year" means the year following the year in which the previous determination referred to in subsection (4) was made.

(6) If, when the previous determination referred to in subsection (4) was made, the amount of "B" that was used for the purpose of subsection (2) was greater than zero, the Director shall, as part of the new determination, calculate the following amount:

$$X - Y$$

where,

X = the amount of electricity produced by the generation facility during the part of the completed production year that ended on the day before the second anniversary of the day electricity was first generated by the facility,

Y = the amount of "B" that was used for the purpose of subsection (2) when the previous determination was made.

(7) If, when the previous determination referred to in subsection (4) was made, the amount of "C" that was used for the purpose of subsection (2) was greater than zero, the Director shall, as part of the new determination, calculate the following amount:

$$X - Y$$

where,

X = the amount of electricity produced by the generation facility during the completed production year,

Y = the amount of "C" that was used for the purpose of subsection (2) when the previous determination was made.

(8) If this subsection applies to the determination of a facility's deemed electricity production and an amount calculated under subsection (6) or (7) is greater than zero, the facility's deemed electricity production is the amount determined under subsection (2), increased by the amount calculated under subsection (6) or (7).

(9) If this subsection applies to the determination of a facility's deemed electricity production and an amount calculated under subsection (6) or (7) is less than zero, the facility's deemed electricity production is the amount determined under subsection (2), reduced by the following amount:

$$-1.1 \times A$$

where,

A = the amount calculated under subsection (6) or (7).

(10) Despite subsections (2) to (9), but subject to subsection (11), if, for the purpose of section 8, a determination is made in 2004 of the Lakeview Generation Facility's deemed electricity production, the facility's deemed electricity production is the amount of electricity

that the owner of the facility estimates will be generated by the facility during the period from May 1, 2005 to December 31, 2005.

(11) If the owner of the Lakeview Generation Facility makes an estimate of an amount of electricity for the purpose of subsection (10) and the Director is of the opinion that the estimate is too high, the Director may, for the purpose of that subsection, substitute a lower estimate made by the Director.

(12) If a determination is made in 2006 of the Lakeview Generation Facility's deemed electricity production for the purpose of section 10 and a determination of the facility's deemed electricity production was made in 2004 for the purpose of section 8, the Director shall, as part of the determination made in 2006, calculate the following amount:

$$X - Y$$

where,

X = the amount of electricity produced by the Lakeview Generation Facility during the period from May 1, 2005 to January 1, 2005.

Y = the estimate that was used in 2004 for the purpose of subsection (10) of the amount of electricity that would be produced by the Lakeview Generation Facility during the period from May 1, 2005 to January 1, 2005.

(13) If a determination is made in 2006 of the Lakeview Generation Facility's deemed electricity production for the purpose of section 10 and the amount calculated under subsection (12) is greater than zero, the facility's deemed electricity production is the amount determined under subsection (2), increased by the amount calculated under subsection (12).

(14) If a determination is made in 2006 of the Lakeview Generation Facility's deemed electricity production for the purpose of section 10 and the amount calculated under subsection (12) is less than zero, the facility's deemed electricity production is the amount determined under subsection (2), reduced by the following amount:

$$-1.1 \times A$$

where,

A = the amount calculated under subsection (12).

(15) Despite subsections (2) to (14), a generation facility's deemed electricity production determined in a year for the purpose of section 8, 10 or 11 shall be deemed to be zero if the Director is satisfied that,

- (a) the facility will have a name plate capacity of more than 25 megawatts at no time in the following year;
- (b) the facility will not generate more than 20,000 megawatt hours of electricity in the following year that will be conveyed into the IMO-controlled grid or sold; or
- (c) the quotient determined by dividing the amount of nitric oxide that will be emitted from the facility in the following year by the amount of electricity that will be generated by the facility in the following year will not be more than 0.01 kilograms per megawatt hour.

(16) Despite subsections (2) to (9), a generation facility's deemed electricity production determined in a year for the purpose of section 14 shall be deemed to be zero if the Director is satisfied that,

- (a) the facility will have a name plate capacity of more than 25 megawatts at no time in the following year;
- (b) the facility will not generate more than 20,000 megawatt hours of electricity in the following year that will be conveyed into the IMO-controlled grid or sold; or

- (c) the quotient determined by dividing the amount of sulphur dioxide that will be emitted from the facility in the following year by the amount of electricity that will be generated by the facility in the following year will not be more than 0.05 kilograms per megawatt hour.

(17) If a determination of a generation facility's deemed electricity production is required by this Regulation, the Director may require the owner of the facility to submit to the Director information on the amount of electricity produced by the facility during any period referred to in this section.

Amending O. Reg. 642/00

(Determination, Allocation, Apportionment and

Billing of Housing Costs)

Note: Regulation 642/00 has previously been amended by Ontario Regulations 8/01 and 366/01.

1. Section 26 of Ontario Regulation 642/00 is revoked and the following substituted:

26. In this section and in sections 26.1 to 26.3,

“GTA service manager” has the meaning given to that expression by section 135 of the Act;

“housing costs” means, in respect of a GTA service manager for a period, its housing costs for the period under section 127 of the Act.

26.1 (1) For the purposes of clause 136 (5) (a) of the Act, the Minister shall reallocate for a period to those GTA service managers who are sharing GTA service managers for the period the amount by which the sum of the housing costs for the period of all GTA service managers who are supported GTA service managers for the period exceed the sum of the net housing costs for the period of those supported GTA service managers.

(2) The total amount to be reallocated to a sharing GTA service manager for a period is the amount by which its net housing costs for the period exceed its housing costs for the period.

(3) For the purposes of clause 136 (5) (c) of the Act, the amount payable by a sharing GTA service manager to a supported GTA service manager is determined using the formula:

$$P \times X/Y$$

in which,

“P” is the amount by which the net housing costs for the period of the sharing GTA service manager exceeds its housing costs for the period,

“X” is the amount by which the supported GTA service manager's housing costs for the period exceed its net housing costs for the period, and

"Y" is the sum of all amounts each of which is the amount by which a supported GTA service manager's housing costs for the period exceed its net housing costs for the period.

(4) Nothing in subsections (1) to (3) relieves a GTA service manager from its obligation to pay to the Minister the portion of the provincial housing costs allocated to it under section 123 of the Act.

(5) In this section,

"net housing costs" means, in respect of a GTA service manager, the amount determined under section 26.2;

"sharing GTA service manager" means, in respect of a period, a GTA service manager whose net housing costs for the period exceed its housing costs for the period;

"supported GTA service manager" means, in respect of a period, a GTA service manager whose housing costs for the period exceed its net housing costs for the period.

26.2 (1) For the purposes of section 26.1, the amount of a GTA service manager's net housing costs for a period is the amount determined using the formula:

$$C \times R$$

in which,

"C" is the sum of the housing costs of all of the GTA service managers for the period,

"R" is the ratio of the weighted assessment of the GTA service manager for the period to the sum of the weighted assessments of all of the GTA service managers for the period.

(2) For 2001, the ratio of the weighted assessment of a GTA service manager to the sum of the weighted assessments of all of the GTA service managers is deemed to be the ratio set out opposite the name of the GTA service manager in Schedule 4.

(3) For 2002 and subsequent years, the weighted assessment of a GTA service manager is the sum of all amounts, each of which is the weighted assessment for a property class in the GTA service manager's service area determined using the formula,

$$W \times A$$

in which,

"W" is the GTA-wide weighted transition ratio for the property class, and

"A" is the sum of the net taxable assessments for the previous year of all properties in the property class in the GTA service manager's service area.

(4) The GTA-wide weighted transition ratio for a property class set out in Schedule 5 is the ratio set out opposite the property class in that Schedule.

(5) The GTA-wide weighted transition ratio for a property class that is not set out in Schedule 5 is the amount determined as follows:

1. For each GTA service manager, multiply the sum of the net taxable assessments for the previous year of all properties in the property class in the GTA service manager's service area by the transition ratio applicable to that property class and service area.
2. Add the products calculated under paragraph 1 in respect of the GTA service managers.
3. Divide the sum calculated under paragraph 2 by the sum of the net taxable assessments for the previous year of all properties in the property class in the service areas of all of the GTA service managers.

(6) In this section,

"net taxable assessment" means,

- (6) If a trade is made under section 2.8, the issuer shall pay the fees prescribed by section 23 of Schedule 1 to the Regulation as if section 23 referred to section 2.8 instead of clause 72(1)(i) of the Act.
- (7) A report is not required under subsection (1) where, by a trade under section 2.3, a person or company referred to in paragraph (a), (b), (c) or (d) of section 1.1 acquires from a customer an evidence of indebtedness of the customer or an equity investment in the customer acquired concurrently with an evidence of indebtedness.
- (8) Despite subsection (1), a report in respect of a trade in a security of a mutual fund or non-redeemable investment fund made in reliance upon the exemption from the prospectus requirement in section 2.3 may be filed not later than 30 days after the financial year end of the mutual fund or non-redeemable investment fund.

7.6 Fees for Accredited Investor Application - An application for recognition, or for renewal of recognition, as an accredited investor shall be accompanied by a fee of \$500.

7.7 Report of a Trade Made under Section 2.12 - If a trade is made in reliance upon an exemption from the prospectus requirement in section 2.12, the issuer shall, not later than thirty days after the financial year end of the issuer in which the trade occurred, file a report, in duplicate, prepared in accordance with Form 45-501F1 and the report shall be accompanied by a fee calculated in accordance with section 7.3.

FORM 45-501F3
FORM OF INFORMATION STATEMENT

Introduction

Ontario securities laws have been relaxed to make it easier for small businesses to raise start-up capital from the public. Some potential investors may view this change in securities laws as an opportunity to "get in on the ground floor" of emerging businesses and to "hit it big" as these small businesses grow into large ones.

Statistically, most small businesses fail within a few years. Small business investments are among the most risky that investors can make. This information statement suggests matters for you to consider in deciding whether to make a small business investment.

Risks and Investment Strategy

A basic principle of investing in a small business is: **NEVER MAKE A SMALL BUSINESS INVESTMENT THAT YOU CANNOT AFFORD TO LOSE IN ITS ENTIRETY.** Never use funds that might be needed for other purposes, such as a post-secondary education, retirement, loan repayment or medical expenses, and never borrow money to make such an investment. Instead use funds that you already have set aside and that otherwise would be used for a consumer purchase, such as a vacation.

Never believe that the investment is not risky. Among other risk factors, small business investments generally are highly illiquid. In particular, until the company goes public there are significant restrictions on the resale of its securities. Even after a small business goes public there may be very little liquidity in its shares. This lack of liquidity means that, if the company takes a turn for the worse or if you suddenly need the funds you have invested in the company, you may not be able to sell your securities.

Also, it is important to realize that, just because the proposed offering of securities is permitted under Ontario securities law does not mean that the particular investment will be successful. Neither the Ontario Securities Commission nor any other government agency evaluates or endorses the merits of investments.

Analyzing the Investment

Although there is no magic formula for making successful investment decisions, certain factors are often considered particularly important by professional venture investors. Some questions to consider are as follows:

1. How long has the company been in business?
2. Is management putting itself in a position where it will be accountable to investors? For example, is management taking salaries or other benefits that are too large in light of the company's stage of development? Will outside investors have any voting power to elect representatives to the board of directors?
3. How much experience does management have in the industry and in operating a small business? How successful were the managers in previous businesses?
4. Do you know enough about the industry to be able to evaluate the company and make a wise investment?
5. Does the company have a realistic business plan? Does it have the resources to successfully market its product or service?
6. How reliable is the financial information, if any, that has been provided to you? Is the information audited?
7. Is the company subject to any lawsuits?
8. What are the restrictions on the resale of the securities?

There are many other questions to be answered, but you should be able to answer these before you consider investing. If you have not been provided with the information you need to answer these and any other questions you may have about the proposed investment, make sure that you obtain the information you need from people authorized to speak on the company's behalf (e.g., management or the directors) before you advance any funds or sign any commitment to advance funds to the company. It is generally a good idea to meet with management of the company face-to-face.

Making Money on Your Investment

There are two classic methods for making money on an investment in a small business: (1) through resale of the securities in the public securities markets following a public offering; and (2) by receiving cash or marketable securities in a merger or other acquisition of the company.

If the company is the type that is not likely to go public or be acquired within a reasonable time (i.e., a family-owned or closely-held corporation), it may not be a good investment for you irrespective of its prospects for success because of the lack of opportunity to cash in on the investment. Management of a successful private company may receive a return indefinitely through salaries and bonuses but it is unlikely that there will be profits sufficient to pay dividends commensurate with the risk of the investment.

Conclusion

When successful, small businesses enhance the economy and provide jobs for its citizens. They also provide investment opportunities. However, an opportunity to invest must be considered in light of the inherently risky nature of small business investments.

In considering a small business investment, you should proceed with caution and make an informed investment decision based on your circumstances and expectations. Above all, never invest more than you can afford to lose.

**COMPANION POLICY 45-501CP TO
ONTARIO SECURITIES COMMISSION RULE 45-501
EXEMPT DISTRIBUTIONS**

PART 1 PURPOSE AND DEFINITIONS

- 1.1 Purpose** - This policy statement sets forth the views of the Commission as to the manner in which certain provisions of the Act and the rules relating to the exemptions from the prospectus and registration requirements are to be interpreted and applied.
- 1.2 Definitions** - In this Policy, "private placement exemptions" means the prospectus and registration exemptions available for
- (a) sales of securities of closely-held issuers under section 2.1 of Rule 45-501; and
 - (b) sales of securities to accredited investors under section 2.3 of Rule 45-501.

PART 2 EXEMPTIONS FROM THE REGISTRATION AND PROSPECTUS REQUIREMENTS OF THE ACT

- 2.1 Interaction of Private Placement Exemptions** - The Commission recognizes that a seller of securities may, in connection with any distribution of securities, rely concurrently on more than one private placement exemption. The Commission notes that where the seller is paying or incurring selling or promotional expenses in connection with the distribution, other than for the services of a dealer registered under the Act, the seller may not be able to rely on the exemption in section 2.1. The Commission takes the view that expenses incurred in connection with the preparation and delivery of an offering memorandum do not constitute selling or promotional expenses in this context.

2.2 Accredited Investor Status For Individuals

- (1) Paragraph (m) of the "accredited investor" definition in section 1.1 of Rule 45-501 refers to an individual who beneficially owns, or who together with a spouse beneficially own, financial assets having an aggregate net realizable value that, before taxes but net of any related liabilities, exceeds \$1,000,000. As a general matter, it should not be difficult to determine whether financial assets are beneficially owned by an individual, an individual's spouse, or both, in any particular instance. However, financial assets held in a trust or in other types of investment vehicles for the benefit of an individual may raise questions as to whether the individual beneficially owns the financial assets in the circumstances. The Commission is of the view that the following factors are indicative of beneficial ownership of financial assets:

- (a) physical or a constructive possession of evidence of ownership of the financial asset;
- (b) entitlement to receipt of any income generated by the financial asset;
- (c) risk of loss of the value of the financial asset; and
- (d) the ability to dispose of the financial asset or otherwise deal with it as the individual sees fit.

By way of example, securities held in a self-directed RRSP for the sole benefit of an individual would be beneficially owned by that individual. In general, financial assets in a spousal RRSP would also be included for purposes of the threshold test because paragraph (m) takes into account financial assets owned beneficially by a spouse. However, financial assets held in a group RRSP under which the individual would not have the ability to acquire the financial assets and deal with them directly would not meet this beneficial ownership requirement.

- (2) The Commission notes that paragraphs (m) and (n) of the "accredited investor" definition are designed to treat spouses as an investing unit such that either spouse may qualify as an accredited investor if both spouses, taken together, beneficially own the requisite amount of financial assets or earn the requisite net income. As well, it is the Commission's view that the financial asset test and the net income test prescribed in paragraphs (m) and (n), respectively, are to be applied only at the time of the trade such that there is no obligation on the seller to monitor the purchaser's continuing qualification as an accredited investor after the completion of the trade. Furthermore, the Commission considers that the references to "years" and "current year" in paragraph (n) mean calendar years or current calendar year, as applicable.
- (3) Paragraph (q) of the "accredited investor" definition refers to certain family members of an officer or director of the issuer. The Commission notes that officers and directors of an issuer or its affiliated entities are, in effect, treated as accredited investors under Rule 45-503 Trades to Employees, Executives and Consultants.

2.3 Closely-Held Issuer Exemption

- (1) The exemption in section 2.1 relating to securities of closely-held issuers is available to the closely-held issuer itself in respect of an issue of its own securities and to any holder of the issuer's securities in respect of a sale of the securities. A closely-held issuer may issue its own securities in reliance upon the exemption in section 2.1 so long

as it is able to meet the criteria for the availability of the exemption in that section. In particular, a closely-held issuer may no longer use the closely-held issuer exemption once it has received aggregate proceeds of \$3,000,000 from trades made in reliance upon the exemption. However, a holder of securities of a closely-held issuer may rely upon the exemption in section 2.1 in connection with any resale of the securities so long as the issuer continues to be a closely-held issuer after the resale. The issuer does not cease to be a closely-held issuer solely because it has raised \$3,000,000 in aggregate proceeds using the exemption.

- (2) The Commission notes that a closely-held issuer will generally be in a position to facilitate the use of the exemption in section 2.1 for the resale of its securities by limiting the number of its security holders through, among other things, use of the share transfer restrictions in its constating documents or in an agreement with its shareholders. Once the issuer no longer meets the closely-held issuer definition, a resale of securities distributed under the exemption in section 2.1 may only be made in reliance upon another exemption or by complying with the relevant provisions of Multilateral Instrument 45-102 Resale of Securities ("MI 45-102").
- (3) The Commission notes that the limitation on the use of the closely-held issuer exemption in paragraph (a) of subsection 2.1(1), which refers to aggregate proceeds of \$3,000,000, is based on the aggregate of all proceeds received by the issuer at any time from trades made in reliance upon the exemption in section 2.1. Proceeds received by the issuer from trades made in reliance upon other exemptions, including exemptions available prior to the date when the exemption in section 2.1 first became available, are not relevant. In particular, the proceeds realized by the issuer from trades to accredited investors need not be included in determining whether the \$3,000,000 threshold would be exceeded in respect of any proposed trade under section 2.1. However, if the issuer has not filed a report on Form 45-501F1 in respect of a trade with an accredited investor where such a filing is required, it will be presumed that the trade was made in reliance upon section 2.1, in which case the proceeds of that trade must be counted for purposes of the aggregate proceeds limit.
- (4) The Commission notes that the term "common enterprise" in paragraph (a) of subsection 2.1(1) is intended to operate as an anti-avoidance mechanism to the extent that multiple business entities are organized for the purposes of financing what is essentially a single business enterprise in order to benefit from continued or excessive use of the closely-held issuer exemption. The Commission takes the view that commonality of ownership combined with commonality of business plans will be particularly indicative of a "common enterprise".
- (5) The Commission considers that the reference to "the date of the trade" for purposes of the information statement delivery requirement in subsection 2.1(2) means the settlement date or closing date of the trade, as applicable.

- 2.4 **Sunset of Pooled Fund Rulings** – Prior to the implementation of Rule 45-501 on November 30, 2001, the Commission has granted numerous rulings under subsection 74(1) of the Act providing exemptive relief from the prospectus and registration requirements to pooled fund issuers in respect of, among other things, the sale of additional pooled fund interests to investors that previously purchased pooled fund interests under an exemption. In general, these rulings contained a "sunset" provision stating that the ruling would terminate following the adoption of a rule regarding trades in securities of pooled funds. Rule 45-501 contains a "transitional" exemption in section 2.12 that exempts the sale of securities of a private pooled fund to an investor acquiring at least \$150,000 of such securities and, if the fund's adviser is registered under the Act, the sale of additional securities of the same fund to such an investor. The Commission considers that this transitional pooled fund exemption, together with the accredited investor exemption in section 2.3 of Rule 45-501 which exempts sales of securities to certain types of accredited investors, provide adequate transitional relief from the prospectus and registration requirements for trades in pooled fund interests to investors. OSC Rule 81-501 Mutual Fund Reinvestment Plans also continues to apply to securities of pooled funds that are issued to investors under reinvestment plans whereby distributions of income, capital or capital gains to investors are reinvested in additional securities of that pooled fund. Accordingly, the Commission takes the view that the rulings described above expire upon implementation of Rule 45-501. The Commission considers that section 2.12 is a "transitional" exemption that maintains the status quo for pooled funds until such time as the Commission determines the appropriate regulatory regime for pooled funds.
- 2.5 **Trades on an Amalgamation, Arrangement or Specified Statutory Procedure** - Clause 72(1)(i) of the Act and section 2.8 of Rule 45-501 provide exemptions for trades in securities in connection with a statutory amalgamation or arrangement or other statutory procedure. The Commission is of the view that the references to statute in these provisions refer to any statute of a jurisdiction or foreign jurisdiction under which the entities involved have been incorporated or created and exist or under which the transaction is taking place.
- 2.6 **Three-Cornered Amalgamations** - Certain corporate statutes permit a so-called "three-cornered merger or amalgamation" under which two companies will amalgamate or merge and security holders of the amalgamating or merging entities will receive securities of a third party affiliate of one amalgamating or merging entity. Section 2.8 of Rule 45-501 exempts these trades as the exemption applies to any trade made in connection with an amalgamation or merger.
- 2.7 **Other Exemptions** - There are various other exemptions from the prospectus and registration requirements that are available to sellers of securities in prescribed circumstances, including Rule 45-503 Trades to Employees, Executives and Consultants which exempts sales of securities of an issuer to its employees and executives, among others. The Commission notes, in particular, that certain exemptions previously contained in Rule 45-501 as it read when it was originally adopted are now contained in MI 45-102. Market participants engaged in the purchase and sale of securities under exemptions from the prospectus and registration requirements should read MI 45-102 together with Rule 45-501 to

ensure that they have duly considered all regulatory requirements applicable to exempt distributions of securities in Ontario.

- 2.8 Applications for Accredited Investor Recognition** – Paragraph (u) of the "accredited investor" definition in section 1.1 of Rule 45-501 contemplates that a person or company may apply to be recognized by the Commission as an accredited investor. The Commission will consider applications for accredited investor recognition submitted by or on behalf of investors that do not meet any of the other criteria for accredited investor status but nevertheless have the requisite sophistication or financial resources. The Commission has not adopted any specific criteria for granting accredited investor recognition to applicants as the Commission believes that the "accredited investor" definition generally covers all of the types of investors that do not require the protection of the prospectus and registration requirements under the Act. If the Commission considers it appropriate in the circumstances, it may grant accredited investor recognition to an investor on terms and conditions, including a requirement that the investor apply annually for renewal of accredited investor recognition. The Commission notes that section 8.1 of Rule 45-501 provides, as a transitional matter, that a person or company recognized by the Commission as an exempt purchaser will be considered an accredited investor for the remaining term of the recognition order up to one year from the effective date of Rule 45-501. The Commission believes that a person or company previously recognized as an exempt purchaser should have little difficulty qualifying as an accredited investor under Rule 45-501 after its exempt purchaser recognition expires, unless the person or company has experienced a change in its financial circumstances.

PART 3 CERTIFICATION OF FACTUAL MATTERS

- 3.1 Seller's Due Diligence** - It is the seller's responsibility to ensure that its trades in securities are made in compliance with applicable securities laws. In the case of a seller's reliance upon exemptions from the prospectus and registration requirements, the Commission expects that the seller will exercise reasonable diligence for the purposes of determining the availability of the exemption used in any particular circumstances. The Commission will normally be satisfied that a seller has exercised reasonable diligence in relying upon a particular exemption if the seller has obtained statutory declarations or written certifications from the purchasers, unless the seller has knowledge that any facts set out in the declarations or certifications are incorrect. In circumstances where a seller has recently obtained a statutory declaration or a written certification from a purchaser with whom a further trade is being made on an exempt basis, the seller may continue to rely upon the recently obtained statutory declaration or certification unless the seller has reason to believe that the statutory declaration or certification is no longer valid in the circumstances.

PART 4 OFFERING MEMORANDA

4.1 Use of Offering Memoranda in Connection with Private Placements

- (1) Part 4 of Rule 45-501 provides for the application of the statutory right of action referred to in section 130.1 of the Act if an offering memorandum is delivered to a prospective investor in connection with a trade made in reliance upon a prospectus exemption in section 2.1, 2.3, 2.12 or 2.13 of Rule 45-501. In this case, the statutory right of action must be described in the offering memorandum and a copy of the offering memorandum must be delivered to the Commission. With the exception of the government incentive security exemption in section 2.13, there is no obligation to prepare an offering memorandum for use in connection with a trade made in reliance upon the above-noted prospectus exemptions. However, business practice may dictate the preparation of offering material that is delivered voluntarily to purchasers in connection with exempt trades under section 2.1, 2.3, or 2.12. This offering material may constitute an "offering memorandum" as defined in Ontario securities law. The statutory right of rescission or damages applies when the offering memorandum is provided mandatorily in connection with an exempt trade made under section 2.13, or voluntarily in connection with exempt trades made under section 2.1, 2.3 or 2.12, including an exempt trade made under section 2.3 to a government or financial institution that is an accredited investor. However, a document delivered in connection with a sale of securities made otherwise than in reliance upon the above-noted exemptions does not give rise to the statutory right of action or subject the seller to the requirements of Part 4.
- (2) With the exception of an offering memorandum that is provided in respect of a trade in government incentive securities made under the exemption in section 2.13, Ontario securities law generally does not prescribe what an offering memorandum should contain.
- (3) The Commission cautions against the practice of providing preliminary offering material to certain prospective investors before furnishing a "final" offering memorandum unless the material contains a description of the statutory right of action available to purchasers in situations when the statutory right of action applies and a description is required. The only material prepared in connection with the private placement for delivery to investors, other than a "term sheet" (representing a skeletal outline of the features of an issue without dealing extensively with the business and affairs of the issuer), should consist of an offering memorandum describing the statutory right of action and complying in all other respects with Ontario securities law.

PART 5 RESTRICTIONS ON RESALE OF SECURITIES

- 5.1 Incorporation of Multilateral Instrument 45-102 Resale of Securities** - Parts 6 and 8 of the Rule imposes resale restrictions on the first trades in securities distributed under certain exemptions from the prospectus requirements. Different types of resale restrictions are imposed depending upon the nature of the prospectus exemption under which the securities were distributed. In each case, the applicable resale restrictions are incorporated by reference to a specific

section of MI 45-102. Sellers of securities are reminded that these resale restrictions need not apply if the seller is able to rely upon another prospectus exemption in the Act or in a Commission rule in respect of the resale of the securities in question.

PART 6 COMMISSION REVIEW

- 6.1 Review of Offering Material** - Although sellers of securities who rely upon the private placement exemptions are required to deliver to the Commission copies of offering material that they use in connection with the exempt trades if the offering material constitutes an "offering memorandum" as defined in Ontario securities law, the offering material is not generally reviewed or commented upon by Commission staff.
- 6.2 Other Regulatory Approvals** - Given the self-policing nature of exempt distributions and the fact that offering memoranda are not routinely reviewed by Commission staff, the decision relating to the appropriate disclosure in an offering memorandum rests with the issuer, the selling securityholder and their advisors. If Commission staff becomes aware of an offering memorandum that fails to disclose material information relating to the securities that are the subject of the transaction, staff may seek to intervene to effect remedial action.

**COMPANION POLICY 45-102CP
TO MULTILATERAL INSTRUMENT 45-102
RESALE OF SECURITIES**

PART 1 APPLICATION

1.1 Application

- (1) Multilateral Instrument 45-102 ("MI 45-102") has been implemented in all jurisdictions except Quebec.
- (2) Except for sections 2.1, 2.8 and 2.9, Part 2 of MI 45-102 does not apply in Manitoba, New Brunswick, Prince Edward Island and the Yukon Territory.

1.2 Purpose

- (1) MI 45-102 provides that first trades of securities distributed under certain exemptions from the prospectus requirement are distributions unless certain conditions are met. The conditions impose restrictions on the resale of the securities. If the securities were distributed under any of the provisions listed in Appendix D to MI 45-102, the conditions include that the issuer is and has been a reporting issuer for a seasoning period and that a restricted period has elapsed from the date of the initial distribution. If the securities were distributed under any of the provisions listed in Appendix E to MI 45-102, the conditions include that the issuer is and has been a reporting issuer for a seasoning period. If the issuer is a qualifying issuer, MI 45-102 reduces the restricted period and seasoning period. MI 45-102 also provides an exemption for a control distribution and a sale by a pledgee of pledged securities if the sale would be a distribution for the purposes of securities legislation.
- (2) Nothing in MI 45-102 is intended to restrict the ability of a purchaser to resell securities during the restricted period or seasoning period in reliance upon a prospectus or an exemption from the prospectus requirement.

1.3 Transition

- (1) Part 2 of MI 45-102 applies to first trades of securities made on or after the effective date of this Instrument, even if the securities were distributed, or acquired by the selling security holder in the case of a trade that is a control distribution, prior to the effective date of this Instrument. As a result, in determining whether the restricted period in section 2.5 or 2.8 of MI 45-102 or the seasoning period in subsection 2.6(3) or (4) or subsection 2.8(2) or (3) of MI 45-102 has expired, a seller making a first trade must determine whether the issuer was a qualifying issuer at the date the security that is the subject of the trade was distributed or, in the case of a trade that is a control distribution, the date the security that is the subject of the trade was acquired by the control person selling the security. In the case of a trade of an underlying security, the seller must determine whether the issuer of the underlying security was a qualifying issuer at the date the convertible security, exchangeable security or multiple convertible security that, directly or indirectly, entitled or required the holder to acquire the underlying security was distributed.
- (2) Items 2.5(2)3. and 2.5(3)3. of MI 45-102 impose a condition that if the security that is the subject of the trade was distributed on or after the effective date of MI 45-102, the certificate representing the securities must carry a legend disclosing the resale restriction. Certificates representing securities distributed prior to the effective date of MI 45-102 do not have to be legended under MI 45-102.
- (3) Form 45-102F1 is required to be filed under subsection 2.7(1) of MI 45-102 if an issuer ceases to be a private company or a private issuer on or after the effective date of MI 45-102. Similarly, Form 45-102F2 is filed under subsection 2.7(2) of MI 45-102 if the issuer of the securities is a qualifying issuer and the distribution date is on or after the effective date of MI 45-102. Form 45-102F2 is filed under subsection 2.7(3) of MI 45-102 if the issuer becomes a qualifying issuer in certain circumstances on or after the effective date of MI 45-102.

- 1.4 Open System Jurisdictions** - Sections 2.5 and 2.6 of MI 45-102 do not apply in the provinces of Manitoba, New Brunswick and Prince Edward Island and in the Yukon Territory as those jurisdictions do not impose restrictions on first trades in securities distributed under an exemption from the prospectus requirement in those jurisdictions unless the trade is a control distribution.

- 1.5 Example of Application of Section 2.5** - If an issuer distributes securities to a purchaser in British Columbia, the issuer must file a prospectus or rely upon a prospectus exemption under the securities legislation of British Columbia. If the issuer relies upon a British Columbia prospectus exemption listed in Appendix D to MI 45-102, section 2.3 of MI 45-102 applies and the first trade of the securities is subject to section 2.5 of MI 45-102. Section 2.5 provides that the first trade is a distribution unless, among other conditions, a four or 12 month restricted period has elapsed. If the British Columbia purchaser seeks to resell the securities into Ontario, a prospectus must be filed in Ontario or a prospectus exemption relied upon unless the conditions in subsection 2.5(2) or (3) of MI 45-102 are satisfied.

- 1.6 Reporting Issuer History** - If an issuer is a SEDAR filer, reporting issuer history in any of the jurisdictions listed in Appendix B will satisfy the reporting issuer history requirements in sections 2.5, 2.6 and 2.8 of MI 45-102. If the

issuer is not a SEDAR filer, the reporting issuer history must be in the jurisdiction of the purchaser of the securities that are the subject of the trade.

- 1.7 **Eligibility** - Securities that were distributed when an issuer had a current AIF and met the other eligibility requirements of a qualifying issuer may be sold in accordance with subsection 2.5(2) or 2.6(3) of MI 45-102, even if the issuer is no longer a qualifying issuer at the time of the trade. However, if the issuer subsequently distributes securities at a time when it is not a qualifying issuer, purchasers of those securities may not rely upon the reduced restricted period or seasoning period in subsection 2.5(2) or 2.6(3) of MI 45-102.
- 1.8 **Legending of Securities** - Items 2.5(2)3. and 2.5(3)3. of MI 45-102 require that, for securities distributed under any of the provisions listed in Appendix D to MI 45-102 or another prospectus exemption subject to the resale restrictions in section 2.5 of MI 45-102, if the distribution date is on or after the effective date of MI 45-102 a certificate representing the securities must have been issued that carried a legend stating that, unless permitted under securities legislation, the holder of the securities shall not trade the securities before the expiry of the applicable restricted period. Placing a restricted period legend on a share certificate is the most practical manner of providing certainty as to the applicable restricted period and of ensuring more effective regulation of the exempt market in the closed system jurisdictions.
- 1.9 **Calculation of Restricted Periods** - The restricted periods in items 2.5(2)2. and 2.5(3)2. of MI 45-102 are calculated from the distribution date, that is, the date the securities were distributed in reliance on an exemption from the prospectus requirement by the issuer or a control person. For example, if an issuer or control person distributes securities under a private placement exemption to a purchaser in Saskatchewan and the private placee resells the securities during the restricted period to a purchaser in Alberta under a further private placement exemption, upon resale by the Alberta purchaser, that purchaser will determine whether the restricted period has expired by calculating the time period from the date the issuer or control person distributed the securities to the Saskatchewan purchaser.
- In the case of a trade that is a control distribution, the restricted periods in items 2.8(2)2. and 2.8(3)5. of MI 45-102 are calculated from the distribution date, that is, the date the securities were acquired by the control person that is selling the securities.
- 1.10 **Underlying Securities** - The restricted period or seasoning period applicable to trades in underlying securities is calculated from the distribution date of the convertible security, exchangeable security or multiple convertible security.
- 1.11 **Employees** - Section 2.6 of MI 45-102 provides that the first trade of securities distributed under an exemption from the prospectus requirement for employees is a distribution unless certain conditions are met. If the issuer is a qualifying issuer at the distribution date, the conditions include a seasoning period of four months. If the issuer is not a qualifying issuer at the distribution date, the seasoning period is 12 months. However, if the securities were distributed under an employee exemption or exercise of an option exemption at a time when the issuer was not a qualifying issuer and the issuer of the securities subsequently becomes a qualifying issuer after the distribution date by filing a prospectus in a jurisdiction listed in Appendix B and listing or quoting a class of its equity securities on a qualified market, the conditions include that the issuer is and has been a reporting issuer for a four month seasoning period.
- 1.12 **Control Block Distributions** - In addition to the provisions of MI 45-102, in particular section 2.8, the provisions of National Instrument 62-101 Control Block Distribution Issues may also apply to a trade of securities that is a control block distribution by an institutional investor.
- 1.13 **Securities Exchange Take-over Bid or Issuer Bid** - Section 2.11 of MI 45-102 provides relief from the seasoning requirement for a trade of securities issued in connection with a securities exchange take-over bid or securities exchange issuer bid in circumstances in which, among other things, a securities exchange take-over bid circular or securities exchange issuer bid circular is filed by the offeror under securities legislation of the local jurisdiction. The basis for this exemption is that a securities exchange take-over bid circular or securities exchange issuer bid circular for a formal bid is required to contain prospectus disclosure for the offeror or other issuer whose securities are being offered in exchange for the securities of the offeree issuer. In the view of the securities regulatory authority, if a take-over bid circular or issuer bid circular is prepared in connection with an exempt bid, the circular must meet the disclosure standards in securities legislation relating to the form and content of a take-over bid circular or issuer bid circular, as the case may be, for a formal bid in order for the exemption in section 2.11 to be available. If a take-over bid circular or issuer bid circular is prepared in connection with a formal bid, the circular must be filed under the take-over bid or issuer bid requirements of securities legislation. If the circular is prepared in connection with an exempt bid, the circular must be filed by the offeror on SEDAR.
- 1.14 **Resales of Securities of a Non-Reporting Issuer**
- (1) For the purposes of section 2.14 of MI 45-102, it is the view of the securities regulatory authority that, in determining the percentage of the outstanding securities of the class or series that are directly or indirectly owned by residents of Canada and the number of owners directly or indirectly that are residents of Canada, an issuer should use reasonable efforts to
 - (a) determine securities held of record by a broker, dealer, bank, trust company or nominee for any of them for

the accounts of customers resident in Canada;

- (b) count securities beneficially owned by residents of Canada as reported on reports of beneficial ownership; and
 - (c) assume that a customer is a resident of the jurisdiction or foreign jurisdiction in which the nominee has its principal place of business if, after reasonable inquiry, information regarding the jurisdiction or foreign jurisdiction of residence of the customer is unavailable.
- (2) Lists of beneficial owners of securities maintained by intermediaries pursuant to SEC Rule 14a-13 under the 1934 Act or other securities law analogous to proposed National Instrument 54-101 Communication with Beneficial Owners of Securities of a Reporting Issuer may be useful in determining the percentages referred to in subsection (1).

1.15 Filing of Forms 45-102F1, 45-102F2 and 45-102F3

- (1) Subsection 2.6(2) of MI 45-102 provides that the first trade of securities issued by a private company or private issuer made after the issuer has ceased to be a private company or private issuer is a distribution unless the conditions in subsection 2.6(4) are satisfied. Subsection 2.7(1) of MI 45-102 requires an issuer to file Form 45-102F1 if the issuer ceases to be a private company or private issuer on or after the effective date of MI 45-102. Form 45-102F1 must be filed in each jurisdiction in which the issuer has ceased to be a private company or private issuer and section 2.7 of MI 45-102 has been implemented. Section 2.7 has been implemented in Alberta, British Columbia, Newfoundland, Nova Scotia, Nunavut, Ontario and Saskatchewan.
- (2) Subsection 2.7(2) of MI 45-102 provides that if an issuer, or a selling security holder in the case of a control distribution, has distributed securities under a provision listed in Appendix D or E or a provision of securities legislation that specifies that the first trade of the securities is subject to section 2.5 or 2.6 of MI 45-102, Form 45-102F2 must be filed on or before the tenth day after the distribution date if the issuer is a qualifying issuer. However, if an issuer has distributed securities under a provision listed in Appendix F or a provision of securities legislation that specifies that the first trade of securities distributed to an employee, executive, consultant or administrator is subject to section 2.6 of MI 45-102, and the issuer becomes a qualifying issuer after the distribution date by filing a prospectus and listing or quoting equity securities on a qualified market, the issuer must file Form 45-102F2 even though the issuer was not a qualifying issuer at the distribution date. Form 45-102F2 must be filed in the jurisdictions of the purchasers of the securities in which section 2.7 of MI 45-102 has been implemented, being Alberta, British Columbia, Newfoundland, Northwest Territories, Nova Scotia, Nunavut, Ontario and Saskatchewan. Form 45-102F2 should be filed on SEDAR under the issuer's profile under "Continuous Disclosure - SHAIIF - Other" until the SEDAR filer manual is updated to include MI 45-102 filings. Purchasers of securities will be able to determine whether the applicable restricted period or seasoning period is four months or 12 months from a review of SEDAR filings.
- (3) Section 2.8 of MI 45-102 provides that the prospectus requirement does not apply to a control distribution if the conditions in subsection (2) or (3) of section 2.8 are met. Subsection 2.8(4) requires a person or company selling securities under subsection 2.8(2) or (3) of MI 45-102 to file Form 45-102F3. Form 45-102F3 must be filed whether the distribution date is before or after the effective date of MI 45-102.

1.16 Filings in the Local Jurisdiction - Sections 2.10, 2.11 and 2.12 of MI 45-102 state that section 2.6 of MI 45-102 does not apply to a trade in an underlying security if the convertible security, exchangeable security or multiple convertible security is qualified by a prospectus, a trade of a security issued in connection with a take-over bid or issuer bid and a trade in an underlying security if the convertible security, exchangeable security or multiple convertible security is qualified by a securities exchange take-over bid circular or issuer bid circular, respectively. Each of the exemptions from section 2.6 is subject to a condition that a take-over bid circular, an issuer bid circular or a prospectus was filed under securities legislation of the local jurisdiction of the person or company relying upon the exemption from section 2.6. Similarly, the exemptions in sections 2.10 and 2.12 of MI 45-102 require that the issuer of the underlying security be a reporting issuer in the local jurisdiction at the time of the trade. The exemptions in sections 2.11 and 2.12 of MI 45-102 are subject to a condition that the offeror was a reporting issuer in the local jurisdiction on the date securities of the offeree issuer are first taken up under the take-over bid or issuer bid.

PART 2. AIF REQUIREMENTS

- 2.1 Filing of Current AIF** - Issuers that want to enable their security holders to take advantage of a provision of MI 45-102 that requires an issuer to have a current AIF may file a current AIF at any time. An issuer filing a current AIF for the purposes of MI 45-102 should file the notice and the current AIF, if not already filed, under "Continuous Disclosure - SHAIIF" on SEDAR selecting the appropriate filing subtype/document type (i.e. either an AIF, amended AIF or notice) until the SEDAR filer manual is updated to include MI 45-102 filings. A filer that elects to use a current AIF that has previously been filed on SEDAR is not required to refile the document for the purposes of MI 45-102.
- 2.2 Most Recent Financial Year** - Issuers wishing to file a current AIF before they have filed their audited financial statements for the most recently completed financial year may include the audited financial statements for the financial year preceding the most recently completed financial year. For example, an issuer with a December 31 financial year end could continue to use a current AIF containing or incorporating by reference audited annual

financial statements for the year ended December 31, 2000 during the first 139 days of 2002, until such time as annual audited financial statements for the year ended December 31, 2001 have been prepared and filed in accordance with securities legislation.

- 2.3 Review of Current AIF** - An issuer's current AIF may be reviewed at any time and, as a result of this review, changes may need to be made to the current AIF. If an issuer is advised by any regulator that its current AIF does not comply with securities legislation, any of a wide range of compliance actions may be taken by the securities regulatory authorities, from requiring the next AIF to be filed correctly, or a clarifying press release to be issued, to more serious actions such as issuing a cease trade order against the issuer's securities, or initiating appropriate enforcement proceedings against the issuer and its directors and officers.
- 2.4 Review before Distribution** - If the current AIF is reviewed before a distribution of securities and an issuer is advised by any regulator that its current AIF is unacceptable, an issuer will not be a qualifying issuer at the distribution date unless the issuer has made the necessary changes to the current AIF. Security holders that acquire securities under the distribution will not be able to take advantage of subsection 2.5(2), 2.6(3) or 2.8(2) of MI 45-102.
- 2.5 Review after Distribution** - If the current AIF is reviewed after a distribution of securities, and an issuer is advised by any regulator that its current AIF is unacceptable, securities that were distributed while the issuer was a qualifying issuer may be sold in accordance with subsection 2.5(2), 2.6(3) or 2.8(2) of MI 45-102 if the other conditions in the relevant subsection are met.

PART 3 FEES

- 3.1 Fees** - An issuer filing a current AIF under section 3.1 of MI 45-102 must pay the filing fees for the AIF required by securities legislation, unless the current AIF is in the form of a prospectus for which the regulator has issued a receipt.
